

Biochemistry and Genetics

Seminar Program – Semester 1, 2010

Wednesdays 4pm, Molecular Sciences Seminar Room, Room 351, Level 3, Physical Sciences 4

Date	Speaker
10 March 2010, 3pm	Dr Patrick Humbert (Peter MacCallum Cancer Centre) The Disorientation of Cancer: Tumour Suppression mediated by a Network of Cell Polarity Regulators Host: Professor Liam O'Connor
<i>Tuesday</i> 23 March 2010	Professor Frances Shannon (John Curtin School of Medical Research, Australian National University) Controlling T cell differentiation through the NF-κB signalling pathway Host: Professor Nick Hoogenraad
<i>Monday</i> 29 March 2010	Professor Andrew Sinclair (Murdoch Childrens Research Institute and the University of Melbourne) Sex in humans and birds – what is the difference? Host: Dr Michael Ryan
31 March 2010	Dr Nick Robinson (Norwegian Fisheries and Aquaculture) Application of second-generation sequencing technologies for improving health surveillance and disease resistance in fish Host: Dr Jan Strugnell
14 April 2010	Dr Leigh Coultas (WEHI) Hedgehog and VEGF Signaling in Development of the Blood Vascular System Host: Professor Liam O'Connor
21 April 2010	Professor Tom Gonda (University of Queensland) Myb target genes and transformation in myeloid cells Host: Professor David Vaux
28 April 2010	Dr Leonie Quinn (University of Melbourne) Drosophila models for regulation of the MYC oncogene Host: Dr Gregory Somers
5 May 2010	Dr Doug Fairlie (WEHI) Targeting the Bcl-2 apoptosis pathway for therapy Host: Dr Hamsa Puthalakath
12 May 2010	Professor Alister C. Ward (Deakin University) Fishing for function: analysis of cytokine receptor signalling using zebrafish Host: Dr Alex Maier
19 May 2010	Dr Adam Walker (La Trobe University) Protein disulphide isomerase and ER stress signaling in motor neuron disease Host: Dr Julie Atkin
26 May 2010	Professor David J. Adams (RMIT) Modulation of ion channels by venom peptides Host: Professor Leann Tilley
