## student feedback from the 2008 Career Mentoring Program

- 👉 One to one with a person in my field. It was great that we could focus on my questions
- 👉 Good chance to talk about the aspect of my uni/career transition that was worrying me
- 👉 To be able to exchange ideas with people in the field, and get insight information about their work
- 👉 Helped me to think about what I have done during uni that will help me with job applications. This experience has helped me so much, to be more confident about how I approach a new job
