

Summer Vacation Scholarships

Students who are interested in gaining skills and experience in a research laboratory are invited to apply for a summer vacation scholarship in the Department of Chemistry.

Research projects will be in the area of Medicinal Chemistry under the supervision of Dr Belinda Abbott and will mainly require the skills gained in the third year synthesis laboratory during second semester.

Scholarships are open to undergraduate students who expect to have completed at least 60 credit points in Chemistry this year (with an expected average grade of at least 65%) and have undertaken the third year synthesis laboratory.

There will be 1-2 positions available.

Salary \$500 per fortnight (tax-free)

Tenure 4 weeks, full-time

Starting Date Monday 30th November or by negotiation

Selection Criteria

Preference will be given to students who will be undertaking the Honours program in the Department of Chemistry in 2010. The Honours project does not need to be in medicinal chemistry.

Applications

Please forward an email outlining your intended plans for 2010 to b.abbott@latrobe.edu.au with a 1-2 page resumé attached which includes your undergraduate grades.

Applications close at 5pm on Friday 30th October 2009.
Successful applicants will be contacted by email.
