

Second TRIN Taxonomic Workshop Programme

La Trobe University, Albury-Wodonga Campus

Everything you ever wanted to know about mayflies (Ephemeroptera)

Nymphs: Keys to the Baetidae including the still water genera *Centroptilum* and *Cloeon*.

Adults: Key to the genera of Australian mayflies

and

Keys to the hydraenids (Coleoptera Hydraenidae)..

As part of the workshop there will be a 2 hour session for participants to trial the keys and provide feedback on the ease of use, identification of difficult characters etc. This workshop will be with the presenters so that the keys can be modified/improved as part of the workshop.

Bring your own specimens to identify in the workshop.

Tuesday 9th February 2010
