

Department Scholarship for International Coursework Postgraduate Students

The Department of Electronic Engineering received eight applications. All applicants meet the essential requirements. The Scholarship Committee has made its decision based on the average mark of fourth and fifth year units and the applicant's contribution to profession and/or community.

We are pleased to announce that three applicants are of equal merit and will share the Department Scholarship. Their student numbers and average marks are as follows: 15611413 (90.13), 15599095 (89.89), and 1599072 (88.67). Each student will be awarded a scholarship to the value of \$3210.
