

Department Scholarship for International Coursework Postgraduate Students

The Department of Electronic Engineering received three applications. All three applicants meet the essential requirements. The Scholarship Committee has made its decision based on the average mark for the best four (4) subjects (non-foundation subjects) in the previous two semesters (semester 1 in 2007 and semester 2 in 2006).

We are pleased to announce that the applicant (15169963) has the highest mark (86.25) and is awarded the Department Scholarship for the second semester to the value of \$8500. The other two applicants have the average marks of 83.5 and 81.75, respectively.
