More laboratory work and start laboratory work sooner.

SECTION C: UNIT COORDINATOR'S COMMENTS

(d) Last year's suggested improvements

Invest in equipment for laboratory work.

(e) Unit coordinator's comments on the unit this year

The unit used some external (hospital) experts to deliver specialist lectures. This affords the students the opportunity to interact with prospective employers and be exposed to a wide range of topics. It is intended to continue to do this.

(f) Unit coordinator's suggestions for improvements next year

Laboratory equipment to support the breadth of this unit would be prohibitively expensive. We will investigate computer simulation opportunities. The unit had three assignments and four laboratory exercises for students to complete, we will consider increasing the number of these tasks.

SECTION D: COMMENTS BY HEAD OF SCHOOL OR NOMINEE

A very practical unit for Biomed.
