

MSc THESES

- G. J. Medwell 1977 Structural geology and sedimentation patterns in Mesozoic sediments of the Otway Ranges, Southern Victoria, Australia
- D. M. Christie 1978 The Geology and origin of the Dookie Greenstone Complex, Victoria
- R. Blake 1980 Geology and hydrogeology of the Early Tertiary sediments of the Otway Basin
- I. E. Hawkins 1980 The stibnite gold association in Victoria
- W. M. Brown 1983 The genesis of a F-Sn-W skarn at Mt. Garnet, Queensland - An example of a granite-skarn hydrothermal system.
- G. Plummer 1986 A geological, petrological and fluid inclusion study of the Scamander - St. Helens Sn-W-Mo-Cu-Pb-Ag-ZN mineral Field NE Tasmania, Australia
- A. Camacho 1987 Geochemistry of some fractionated Western Tasmania Granites.
- Vu Dang Thanh 2004 Adsorption of phosphorus in acid sulphate soils

PhD THESES

- Tan Teong Hing 1979 The genesis of the King Island Scheelite (Dolphin) deposit as determined from fluid inclusion and mineral chemical zoning studies
- J. J. Cramer 1979 Geochemical variation in some differentiated granitic magmas east of Melbourne, Victoria
- S. D. Beams 1980 Magmatic evolution of the southeast Lachlan Fold Belt, Australia
- P. V. Brennan 1983 Vol. I - The petrology and petrogenesis of selected ultramafic rocks in Eastern Australia Vol. II - Appendices
- W. J. Collins 1983 Geological evolution of an Archaean Batholith
- P. Putthapiban 1984 Geochemistry, geochronology and tin mineralization of Phuket granites, Phuket, Thailand
- P. B. Abeyasinghe 1985 A Fluid Inclusion, Petrological, Mineralogical and Thermodynamic Study of the Mary Kathleen Skarn and its Genesis.
- J. H. Wright 1986 The Mt. Bischoff Deposit, Tasmania: Geology and Genesis of a F, B, Be, Li, S-Bearing Tin Deposit.
- Y. Chen 1988 Lithic inclusions in some I and S-type granites of the Lachlan Fold Belt, SE Australia.
- R. Creaser 1989 The geology and petrology of the middle proterozoic felsic magmatism

of the Stuart Shelf, South Australia

M. Fu 1990 A comparative study of some skarn (carbonate replacement) tin deposits in Australia and China.

S. Liu 1992 Mafic dykes and their geological setting in the southern Adelaide Fold Belt, South Australia.

R. W. Brown 1993 A Fission Track thermochronology study of the tectonic and Geomorphic development of the sub-aerial continental margins of southern Africa.

N. Kotb 1993 Geochemistry of granites and volcanics from the Holbrook region, southeastern Australia.

P. O'Sullivan 1993 Late Mesozoic to Cenozoic, thermal and uplift history of the North Slope Foreland Basin, Northern Alaska and Northwestern Canada

R. Wormald 1993 The Petrology and Geochemistry of Mid to Late Palaeozoic Magmatism in the Temora Region, New south Wales

Z. Gao 1993 A comparative study of the turbidite-hosted gold deposits in the Bendigo-Ballarat and Melbourne zones, central Victoria, Australia

D. Steele 1993 Petrological studies on gneisses and granites of the Tallangatta Region, NE Victoria

T. Bernecker 1993 A sedimentation model for the Chillagoe Formation in the Mungana area, North Queensland

D. Coyle 1994 The application of apatite fission track analysis to problems in tectonics

B. Oyston 1996 Thermoluminescence dating of quartz from Quarternary aeolian sediments in southeastern Australia.

A. Raza 1996 Mesozoic therm-tectonic evolution of central eastern Australia and the Waitemata Basin, North Island , New Zealand. A Fission Track study.

J. Anderson 1997 A structural, metamorphic, isotopic and geochemical study of metasedimentary enclaves from the Southern Lachlan Fold Belt

M. Mitchell 1997 The thermal and tectonic development of the Western Otway Basin and Flinders Ranges region, Australia, from apatite fission track analysis

W. Noble 1997 Post pan African tectonic evolution of Eastern Africa: an apatite fission track study

M. Bucher 1998 Timing of deformation, plutonism and cooling in the Western Lachlan Fold Belt, South -Eastern Australia

X. Li 1998 Genesis of the Bendigo gold deposits, central Victoria, Australia.

Geology, hydrothermal alteration, fluid inclusion, stable isotope and geochronology studies.

A Partridge 1999 Late Cretaceous to tertiary geological evolution of the Gippsland Basin, Victoria.

J. Kelly 1999 Diagenesis and origin of glauconite in Victorian Tertiary Sediment

E. Sutryono 1999 Structure and themochronology of the Bird's Head of Irian Jaya, Indonesia

P. Crowhurst 1999 The tectonic history of northern Papua New Guinea

M.I. Balangue 1999 The geochemistry of alteration and mineralisation in the Tongonan Geothermal field, Leyte, Philippines

M. Martin 2000 The use of heavy mineral geochemistry to determine the provenance of the Upper Jurassic and Lower Cretaceous sediments of the Barrow subbasin north west shelf, Western Australia.

M. Huang 2001 A petrological, geochronological and isotopic study of the Danba Domal metamorphic terrane, eastern Tibet Plateau

S. Lithco 2003 The Karst Water Chemistry of the Cenotes and Springs of the Lower South East of South Australia

C. Ihlenfeld 2004 Isotopic and trace element study of seasonal changes in travertine deposition, north Qld.

B. Smith 2004 Landscape evolution and geomorphology of arid zone lunettes and gypsum dunes in NW Victoria and western NSW

S. White 2005 Karst geomorphology of southeast S.A. and western Victoria

S. Santomartino 2005 Use of anoxic mine drains to remediate acid mine drainage
