

## 2006 Master of Business Administration Unit Quality Assurance

The GSM is committed to delivering a high quality learning experience to its students. In support of this goal the School formally assesses the quality of its teaching and units, using the services of the University's Academic Development Unit (see chart below).

All units are evaluated, each year, every year, in order to ensure the ongoing quality of our work. The *'Quality Assurance of Units'* chart below shows the aggregate of all student responses across all of our units in 2006, giving an overall assessment of the perceived quality of our units.

For our part we are pleased with the outcome, since it shows that our students believed the quality of our units to be very good indeed. We will publish similar information, annually, in order to demonstrate our continuing commitment to achieving excellence in the quality of our units.

Below is a compilation of 2006 MBA unit evaluations. The question asked was as follows –

**All things considered, I was satisfied with this unit?**

Scores represent the aggregate of all unit offerings in 2006.

TOTAL NUMBER OF RESPONSES: N = 1617 Terms: 1, 2, 3 & 4 Year: 2006
