BE THERE!**

CHANGING THE ARCHITECTURE OF GLOBAL GOVERNANCE

The global order is changing rapidly. New powers like China, India and Brazil and institutions like the G20 have become more significant whilst issues such as climate change, population movements, food security and epidemic diseases become more significant threats to security.

La Trobe University's Institute for Human Security invites you to a free public lecture on the changes underway and how they are affecting Australia.

TIME

5–6pm

VENUEWheeler Centre
176 Little Lonsdale St
Melbourne**ALL WELCOME****FOR INFORMATION**Dr Gerhard Hoffstaedter
