

COSTING AND PRICING

Costing and pricing must always be done independently, based on La Trobe University's specific circumstances.

Costing and pricing should never be discussed with the University's competitors. The University's competitors could include other Universities and educational institutions; businesses providing a service or product similar to one being provided by the University; or government entities or departments. The situation may be different if you are involved in a genuine joint venture which has been reviewed by Legal Services.

Price fixing is a form of cartel conduct and can attract criminal penalties, including jail terms of up to 10 years for persons involved in this conduct.

Please contact Legal Services on Extn: 2495 for further advice.
