

## Department of Mathematics and Statistics

### Third Year Prizes

---

#### Arthur Jones Essay Prize

\$250

This prize is to be awarded annually to a student enrolled in at least one second year or third year mathematics unit, for a mathematical essay on a topic not covered in undergraduate units offered by the Department.

The prize is in honour of Dr Arthur Jones, who inspired staff and students by his dedication to student learning.

---

#### The National Bank of Australia Prize in Third Year Mathematics

\$500

Awarded annually to the student in either at least 60 credit points of third year mathematics and statistics units in the double degree Bachelor of Finance/Bachelor of Science, or enrolled in at least 60 credit points of third year mathematics units in any other degree, who has achieved the highest combined mark in third year units.

---

#### Third Year Prize in Statistics

\$150 book voucher

Awarded to the most outstanding student in third year statistical science units.
