

Brian's Puzzle of the Week: 4

Divide a rectangular sheet of paper into eight squares, and number them on one side only as shown below.

Can you fold this sheet (along the ruled lines) into a square packet so that

- the “1” square is face-up on the top, and
- from top to bottom, the squares are in order (not all face-up) from 1 to 8.

The following sheet is more difficult.

| | | | |
|---|---|---|---|
| 1 | 8 | 2 | 7 |
| 4 | 5 | 3 | 6 |
