CELEBRATING
40 YEARS
1967-2007

**International
Workshop
2007**

*The Semantics of
Clause Linking*

PROGRAM

Auditors are welcome, at no fee (but note that we are unable to organise accommodation for auditors). The position paper for the Workshop can be accessed on our website, <http://www.latrobe.edu.au/rclt> (follow the links).

The workshop aims to examine the different grammatical means that languages employ to represent a universal set of semantic relations between clauses. These include temporal linking, conditional, consequence, cause, result, purpose, addition, elaboration, contrast, disjunction and other kinds of alternatives.

Monday 13 August 2007
at Michael J. Osborne Centre Institute for Advanced Study
Seminar Room, La Trobe University, BUNDOORA
