

SHE3INC

Industry Innovation Challenge

In SHE3INC, students work in multi-disciplinary teams on a challenge posed by an industry partner.

Students learn to value the strength provided by a multi-disciplinary team while learning the design thinking and teamwork skills necessary to function in a creative team.

Each team is mentored by the Industry Partner and presents their challenge solution to industry representatives. Previous partners include PriceWaterhouseCoopers and the Victorian State Emergency Service.

Teaching team: Dr Colleen Holt
