Dear Secretary General,

I am pleased to affirm that La Trobe University supports the ten principles of the United Nations Global Compact in the areas of human rights, labour, environment, and anti-corruption.

La Trobe has been committed to these principles since 2010 and over the last 15 years we have endeavoured to embed them into all our operational activity. We also communicate our engagement with the UN Global Compact to our stakeholders and partners to help in promoting the importance of the principles.

During this reporting period, La Trobe has continued our engagement with the United Nations Sustainable Development Goals through initiatives such as embedding the goals within subjects, developing frameworks and policies which support diversity and equality, and identifying related research opportunities.

Over the last two years, we have continued with programs aligned with the UN Global Compact. I am particularly proud of our progress in tackling climate change through our Net Zero Program, with all regional campuses of the University now certified Net Zero. The University is on track to be carbon neutral by 2029.

I am delighted to share these and other achievements with you in the pages that follow. We are also committed to sharing this report with our stakeholders and welcome feedback on its contents.

Yours sincerely,

Professor Theo Farrell
Vice-Chancellor
