

DairyBio Graduate Researcher Scholarships

Doctoral research scholarships awarded to outstanding candidates to undertake research aimed at improving the long-term future of the Australian Dairy Industry

These prestigious scholarships, established by DairyBio, will be awarded to outstanding applicants who are interested in best practise research training in bioinformatics, computational biology, systems biology, engineering, genomics, phenomics, metabolomics, animal nutrition, agronomy or quantitative genetics.

Applicants should have a high level of achievement, including a first class honours degree or equivalent.

Your project will address economic, environmental or technological challenges that have significance for the long-term future of the Australian Dairy Industry.

Benefits of the scholarship

Benefits of the scholarship include:

- a DairyBio Graduate Research Scholarship of \$30,000 per annum (tax free), to support your living costs
- study fees fully funded by La Trobe's Research Training Program (domestic applicants), or LTUFFRS fee relief (international applicants)
- training in research commercialisation communications and career management
- an acclaimed industry mentoring program
- international travel program including conferences and internships
- academic mentoring supported by supervision at La Trobe University
- collaboration with researchers and industry both nationally and internationally
- opportunities to undertake research at AgriBio, Australia's first integrated agricultural systems biology research centre and one of Australia's premier state-of-the-art agribioscience facilities
- access to La Trobe's suite of professional development programs.

How to apply

If you wish to apply for a DairyBio Graduate Researcher Scholarship, follow these steps:

- review the DairyBio Graduate Researcher Scholarship website:
dairybio.com.au/education/scholarships/
- contact Kendra Whiteman
Visitor and Student Coordinator,
Biosciences Research, Department of Economic Development, Jobs, Transport and Resources
on kendra.whiteman@ecodev.vic.gov.au or +61 03 9032 7065 who will facilitate an introduction with potential supervisors.
- when you have received in-principle agreement from DairyBio, complete and submit your application to the La Trobe Graduate Research School (grs@latrobe.edu.au) for admission into La Trobe's PhD program.

DairyBio will carefully review your application and consider you for a DairyBio Graduate Researcher Scholarship.

Closing date

Applications are available for funding now until all projects are filled.
