

SPE3PPS Professional Practice in Sport

SPE3PPS is a third year Sport and Exercise Science subject where students complete 100 hours of placement with an external organisation.

Students have the opportunity to select a placement that aligns with their career interests with a focus on community, elite sport, schools, or clinical applications. Students also develop their personal career portfolio and online profile, and learn how to prepare for a job interview with industry professionals.

SPE3PPS is a core subject for all Bachelor of Sport and Exercise Science students , equipping them with the necessary skills and professional networks to be work ready.
