

BUILD YOUR EMPLOYABILITY WITH REAL-WORLD EXPERIENCES

La Trobe University is committed to helping you build the skills, confidence, and networks needed to thrive in your career. Through Work-Integrated Learning (WIL), you'll connect academic learning with practical experience.

- ✓ Connect with industry through a WIL placement or project experience
- ✓ Opportunities across all disciplines
- ✓ 80-100 hour experiences available

CHOOSE YOUR PATH: A PLACEMENT OR PROJECT

INDUSTRY PLACEMENT

- Apply theory in real-world settings
- Access to workplace support and supervision
- Build skills that help you stand out in your future career

INDUSTRY PROJECT

- Solve real problems in multidisciplinary teams
- Access to academic support and supervision
- Present your ideas to industry professionals

BENEFITS OF WIL

BUILD SELF AWARENESS

Understand your values, strengths and preferences and who you are as a person.

DEVELOP PROFESSIONAL IDENTITY

Find out what drives you to excel, your aspirations and pathways and what you want to contribute to your field.

RESILIENCE & ADAPTABILITY

Discover how to thrive in changing environments, staying productive under pressure or uncertainty.

PROBLEM SOLVING & CRITICAL THINKING

Learn how to analyse situations to make informed decisions. Creating innovative solutions to complex problems.

DEVELOP CONFIDENCE

Receive constructive feedback and gain confidence through achievement and recognition.

COMMUNICATION SKILLS

Practice communication in professional settings. Learn how to put forward your ideas clearly and professionally.

TIME MANAGEMENT

Learn how to meet deadlines for projects and deliverables, improving your overall productivity.

TECHNICAL SKILLS

Exposure to real tools and systems used in industry and opportunities to apply classroom theory in practical settings.
