

## Allocate+ Approved Clash List 2021 Semester One and Terms

Allocate+ strives to provide each student with a clash-free timetable, but this is not always possible. If you have two subjects that clash, Allocate will randomly choose one to allocate you to, and will leave the second subject unallocated. Check both subjects to see if you might be able to resolve the issue by choosing different class times\*. If this is not possible, check to see if either of the subjects is on the Approved Clash List below. If at least one of the activities is on the approved clash list, contact [ASK La Trobe](#), who will help you allocate.

If either class **isn't on the approved clash list**, and there aren't any alternative classes, you may consider:

- As other students modify their timetable and enrolment, spaces may become available. You can continue to attempt to modify your timetable until Allocate+ closes during semester
- Choose an alternative subject that runs at a different time
- Manage the clash yourself e.g. if you have two lectures on at the same time can you attend one in person, and view the other later via the LMS?
- Contact your [subject coordinator](#) to see if the subject can be added to the Approved Clash list.

\*If there is a class time, which would prevent your timetable from clashing, but is listed as full, you can contact your [subject coordinator](#) to request assistance.

For more information see the [Guide to allocation adjustment mode](#).

Please refer to the below table for subjects on the approved clash list.

**\*\*\* Please note that La Trobe Business School online lectures are allowed clash as they are pre-recorded and not streamed live at the scheduled time.**
