

## PRISM acknowledgements

Many people made contributions - large and small - to PRISM. We would like to thank all of the following people for their participation in PRISM:

- ◆ All the many women in participating communities who completed PRISM questionnaires six months and two years after the births of their babies in the period August 2000 - August 2003
- ◆ All the Maternal and Child Health Nurses (MCHNs) and General Practitioners (GPs) who participated in PRISM education programs and other strategies to support mothers in intervention communities
