

* Please note, this course structure is indicative and subject to change depending on your course location, offer year or how you tailor your course with specialisations, majors, minors and electives. Structures for the following year are not normally finalised until October, so the sample provided is based on the most recently approved structure. For more information, please refer to the La Trobe University Handbook.

1ST SEMESTER ENTRY

1 st Semester	2 nd Semester	1 st Semester	Final Semester	
Applied Management for Engineers EMS5EMT	Ground Improvement & Geosynthetics Engineering CIV5GI	Advanced Water Technology and Management CIV5AWM	Advanced Research Based Learning Part A EMS5ARA	Work Integrated Learning Part A EMS5WLA
Advanced Engineering Innovation EMS5AEI	Design for Structural Dynamics CIV5DSD	Mechanics of Composite Materials CIV5MCM		
Computer Aided Engineering EMS5CAE	Infrastructure Design CIV4ID	C PROGRAMMING FOR ENGINEERS AND SCIENTISTS (PG) CSE5CES	Advanced Research Based Learning Part B EMS5ARB	Work Integrated Learning Part B EMS5WLB
Risk & Cost Engineering EMS5RCE	Australian Engineering Environment Sustainability & Practice EMS5AEE	Engineering Research Methodology & Application ELE5ERM		

2ND SEMESTER/SUMMER ENTRY

2 nd Semester/Summer	1 st Semester	2 nd Semester	Final Semester	
Applied Management for Engineers EMS5EMT	Advanced Water Technology and Management CIV5AWM	Ground Improvement & Geosynthetics Engineering CIV5GI	Advanced Research Based Learning Part A EMS5ARA	Work Integrated Learning Part A EMS5WLA
Advanced Engineering Innovation EMS5AEI	Mechanics of Composite Materials CIV5MCM	Design for Structural Dynamics CIV5DSD		
Computer Aided Engineering ELE5CAE	C PROGRAMMING FOR ENGINEERS AND SCIENTISTS (PG) CSE5CES	Infrastructure Design CIV4ID	Advanced Research Based Learning Part B EMS5ARB	Work Integrated Learning Part B EMS5WLB
Risk & Cost Engineering EMS5RCE	Australian Engineering Environment Sustainability & Practice EMS5AEE	Engineering Research Methodology & Application ELE5ERM
