

ADULT SPEECH PATHOLOGY

Our student-led speech pathology service offers individualised support to adults with speech, language, voice and swallowing concerns. All appointments are provided by speech pathology students, supervised by qualified and experienced speech pathologists.

By choosing our clinic, you receive affordable care while supporting the training of future allied health professionals.

What we offer

We can assist with:

- Participating in conversations, including understanding others, finding the right words, and making sentences
- Reading and spelling
- Unclear speech
- Voice training for professionals (e.g., teachers, lawyers)
- Voice concerns
- Voice disorders diagnosed by an Ear, Nose and Throat (ENT) specialist (a referral is required for this service).
- Gender affirming voice and communication training
- Swallowing – safe eating and drinking including food modification

Our service can support instrumental dysphagia assessment such as Fiberoptic Endoscopic Evaluation of Swallowing (FEES) and videofluoroscopy (VFSS) in collaboration with an external provider.

How much will it cost?

We offer affordable fees as part of our student-led service. For the latest fees, visit our website or contact us directly.

Please note, as this is a student-led service, we are unable to offer appointments under Medicare, private health insurance, TAC or WorkCover. We currently do not offer appointments under NDIS.

We only accept card payment – no cash.

How do I get there?
