Inside, you’ll find clever ways to feed your curiosity and challenge your thinking.

With this guide in your hands, you can map out your possibilities and choose a personalised experience that develops every part of you.

When you study at La Trobe, you’ll get the technical skills to land your dream job in courses designed with industry. You’ll put your skills into practice and get professional experience with work placements. You’ll develop the qualities employers value the most: leadership, resilience, critical thinking and adaptability.

All this means a winning edge in today's competitive job market, delivered in a diverse, supportive environment at one of the world's best universities.

Ready to find your clever? Just turn the page…
‘10 years ago we started a bottled water company where 100% of the profits go to aid and development programs. It’s been an amazing journey so far. The skills I learnt at La Trobe were extremely useful in starting the business.’

Jarryd Burns
La Trobe Distinguished Alumni (Young Achiever Award)
Co-founder, Thankyou Group

Clever is...

Being ranked in the top 1.2% of 28,000 universities worldwide¹

Offering you a leading Career Ready program that develops professional, technical and human skills

87.8% of graduates securing work within four months²

Being rated number 1 in Victoria in nine fields of research³

Being the first university in Australia to receive a Green Star rating of six for sustainable large-scale developments⁴

1. Times Higher Education World University Rankings 2019; Webometrics Ranking Web of Universities 2019
2. 2018 undergraduate cohort. Graduate Outcomes Survey (GOS) 2018
3. Excellence in Research for Australia Report 2015
4. Green Star – Communities accreditation
Ten reasons why choosing La Trobe is a clever move

When you choose La Trobe, you can feel confident you’ve made the right decision. You’ll get a supportive, creative and respected education with plenty of fun along the way. Plus, studying with us gives you more than a degree. You’ll get an experience that sets you up for life with practical skills, industry connections and personalised teaching. Here are ten clever reasons to choose La Trobe.

Soak up our global reputation for academic excellence and innovation
Our passionate academics are widely respected for their research into the biggest issues of our time. How do we know? We’re ranked in the top 1% of universities around the world.

At La Trobe, you’ll learn from highly-skilled experts. Across every school, our industry specialists use their knowledge and expertise to help develop and teach our degrees.

Support for success
At La Trobe, you’ll receive all the help you need to get the most out of your study. You can access learning support after hours for all your burning questions. You can also get help from staff and student peers through workshops, one-on-one consultations and online support.

Choose from over 100 Bachelor’s degrees
Why compromise your ambition? Instead, broaden your knowledge, skills and career outcomes with our wide range of courses. We’re all about flexibility, so many of our degrees let you tailor your study with specialist subjects and electives.

We’ve all got different lifestyles, so we offer a range of study options like online study, blended learning and flexible timetables.

Be rewarded for helping your community
Giving back to the community feels good, whether it’s helping out at your local club, campaigning for worthy causes or assisting an elderly neighbour. But did you know it’s also good for your career? Our Aspire program rewards your good deeds by offering an early conditional offer into La Trobe. It’s our way of saying thank you.

To find out more, see page 16.

Become highly employable
Jobs are continually changing as technology advances. La Trobe aims to prepare you for jobs both now and in the future. With our Career Ready program, you’ll get the skills employers are looking for: resilience, passion, empathy and curiosity. It’s an approach that works. Our graduates are highly sought after, with 87.8% of graduates securing work within four months.

This places La Trobe second among Victorian universities.

To find out more, see page 12.

Immerse yourself in campus and community life
After an education that’s close to you? We’ve got seven campuses across Victoria and NSW to choose from, and each one offers a unique culture with access to La Trobe’s entire collection of resources.

To find out more about our different campuses, see page 24.

Our Accelerator Program for budding entrepreneurs
If you’ve got a exciting idea for a start-up, the La Trobe Accelerator Program can help you make it a reality. Successful applicants receive up to $20,000 funding (equity-free) to fast track business ideas and pursue a lean start-up business model.

Create a market strategy, connect with business leaders and community decision-makers, and be mentored by accomplished professionals.

Get industry experience while you study
Getting into your first job can be nerve-wracking. Sure, you need practical skills and knowledge, but you’re also expected to act like a professional.

With our industry placements program, you’ll get workplace experience as you study, so you’ll graduate with confidence and industry connections.

We’ve got strong relationships with plenty of high-profile companies, so you could end up doing a placement with a respected organisation. Plus, our courses are designed in collaboration with industry leaders and many of them are professionally accredited.

Choose from over 90 clubs and societies
It’s true. You can take your pick from over 90 student-run clubs and societies at La Trobe. Join as many as you like, and meet incredible people with diverse interests. It could even help your career. Many of our course-related societies hold careers nights and professional networking events. Plus, a club always looks good on your resume.

Learn more in part two of the Undergraduate Guide.

Study in a diverse, friendly, safe and supportive environment
You’ll find a safe and welcoming culture at La Trobe. Take advantage of our on-campus services like chaplaincy, LGBTIQ support and counselling, Muslim prayer rooms, gender-neutral bathrooms, and access and support for people with disabilities. There’s also the Ngarani Bagora Indigenous Centre at the Melbourne Campus: a dedicated, culturally-safe learning space for Indigenous students.

The changing world of work

The world of work is being transformed by worldwide trends like globalisation, an ageing demographic and an increasingly agile economy. This offers an increasingly agile demographic and globalisation, an ageing worldwide trends like being transformed by the changing world of work.

The workplace is also becoming automated. Some jobs will be affected more than others. Jobs that can be done by a computer or robot are most at risk, like those in factories, shops and office administration.

But some jobs will have an increase in demand. These jobs need a human kind of clever, and that's what we teach at La Trobe. The possibilities are exciting, and new careers have already emerged: Medical nanotechnologists. Virtual reality engineers. Drone pilots. And by 2030, who knows what jobs you could do?

Careers that thrive

It's an exciting time to be working, with technology opening new worlds of possibilities. But what do these really look like? Well, imagine a nurse who needs to deliver medical supplies to patients. An automated delivery cart could do just that. Dr Fiona McKenzie, Australian Futures Project co-founder and La Trobe alumna, thinks this a good thing. "This can create the opportunity for the nurse to spend more time sitting with the patient, measuring blood pressure and providing better care."

And just think about the possibilities for working remotely. We've already seen a rise in freelancers and "digital nomads". With the right skills, you could find yourself working for global companies from just about any location. "There's a huge cohort that will be highly skilled, in demand and able to shape their future," says Dr McKenzie, "and they'll flourish in this environment."

The human factor

So what are the right skills? Well, like we mentioned, jobs of the future need a human kind of clever. The kind that's flexible and creative. That can adapt to an ever-changing job market and find solutions to the most complex challenges.

At La Trobe, you'll develop these skills from the first day of your degree, with passionate mentors and a focus on more than just the technical. You'll graduate with the kind of clever skills that make you stand out: resilience, passion, curiosity and empathy. You'll be highly appealing to employers and ready for any changes.

The human factor in this environment.

The possibilities are exciting, and new careers have already emerged. Medical nanotechnologists. Virtual reality engineers. Drone pilots. And by 2030, who knows what jobs you could do?

Forward-thinking courses

Every one of our courses is designed to prepare you for the future of work, and we're constantly creating new ones to make sure we're at the forefront of research and industry advances. In fact, some of our newest courses are specifically focused on the possibilities and challenges that technology creates.

You could become a cybersecurity expert and protect millions of people from internet bandits. Or maybe you'll use your knowledge of data to turn a start-up into a major business player.

Career Ready Advantage: prepare for the future of work

Want to stand out from the crowd? Build your networks and experience with our Career Ready Advantage program. Designed in partnership with industry, Career Ready helps you graduate with the skills employers are looking for. To find out more, just turn to page 12.

Interesting in finding out more? Take a look at some of our newest undergraduate courses:

- Bachelor of Business Analytics (see page 46)
- Bachelor of Cybersecurity (see page 71)
- Bachelor of Cybersecurity/Bachelor of Psychological Science (see page 71)
- Bachelor of Digital Business (see page 49)

Looking forward, you might be interested in some of our postgraduate options. You could do a course in financial technology, digital health or healthcare analytics, or extend your knowledge in business analytics or digital business.

To learn more, visit: latrobe.edu.au/postgrad
As the future of work unfolds before our eyes, business people around the globe are adapting to meet the demands of an increasingly global economy. We’ve all heard about the high-flying innovators, the Steve Jobs of the world who can start a successful business from mum’s garage. But what does it take to make it in the modern world of business? Is it street smarts, book smarts or just luck?

With the right skills, a strong team and an entrepreneurial spirit, Jarryd steered Thankyou from small beginnings to generate over $6.8 million for people in need around the world. He’s one of La Trobe’s most Distinguished Alumni (yes, he got an award), but he’s also just a smart guy with a good education and a strong vision. It’s easy to imagine, could this also be you?

With this kind of support, La Trobe Business School graduates have everything it takes to succeed. Just ask Jarryd Burns, co-founder of Thankyou, a highly successful social enterprise. Jarryd started Thankyou with two friends while studying at La Trobe in 2008, graduating with a Bachelor of Business in 2010.

‘10 years ago we started a bottled water company where 100 per cent of the profits go to aid and development programs. It’s been an amazing journey so far. The skills I learnt at La Trobe were extremely useful in starting the business.’

La Trobe Accelerator Program

With a bit of help from our Accelerator Program, you could turn that great idea into a successful business. Designed to promote the development of start-ups, the program offers business insights and tailored, dedicated support to help budding entrepreneurs – like yourself – pursue their goals and ventures. And if you’re a successful applicant, you’ll receive up to $20,000 in funding. Equity-free.

Want to learn more? Find out here: latrobe.edu.au/accelerator

Making connections

If big business is more your style, you’ll know that when it comes to opportunities, impressing the right people is key. La Trobe Business School has strong relationships with companies across business, accounting, sports management and tourism/hospitality, with contacts like Optus, KPMG, Deloitte, AFL and the Atlantic Group. You won’t just get to meet these contacts, you’ll get to work with them. Through industry placements, networking events and the chance to work with industry to solve real business problems, you’ll graduate from La Trobe Business School with a healthy list of contacts and plenty of potential job prospects.

In modern business, it also pays to understand how technology and business meet. Our new Industry-led Bachelor of Digital Business is designed to do just that. You’ll hone your analytical skills and develop an entrepreneurial mindset that will help businesses of the future identify commercial opportunities, solve problems and drive innovation.

A world of opportunities

One of our most inspirational graduates, Bronwyn Curtis OBE, shows just how far a Business School degree can take you.

‘I studied economics. It was the best thing I ever did. Coming to La Trobe gave me the confidence to go off and do something else. I became the first woman to be Chief Economist in the City of London.’

Bronwyn went on to achieve incredible things, including a range of female-first executive positions, and is now serving as the Non-Executive Director at JP Morgan. And then there’s this...

“We went to the Palace, the Queen gave me my OBE, and I look back and think, here was a girl from Fitzroy State School and Uni High. And I think throughout my whole career, doing the same thing as everyone else isn’t what I do. You will hit glass ceilings, but don’t keep beating your head against that glass ceiling. Move sideways. Do something else. Take a risk. You can do anything.”

Kick start your career in business at latrobe.edu.au/business
Get the Career Ready Advantage

Worried about getting a job after uni? Get the skills employers are looking for with Career Ready Advantage, designed with industry partners such as PwC, Optus and the Commonwealth Bank. You’ll graduate with experience, confidence and a career portfolio that’s sure to impress.

Plenty of support
As you prepare for your future career, we’ll be there every step of the way with:

• Support finding work through our on-campus recruitment service, with hundreds of casual and graduate opportunities advertised every year.
• Industry placements with our wide network of industry partners.
• Opportunities to connect with potential employers through networking events, showcases and industry panels.
• Free LinkedIn Learning with more than 13,000 online courses to choose from.
• Industry mentoring with our high-profile alumni and partners.
• Career advice from our friendly Career Ready experts.
• Lifetime career support with ongoing access to online resources, workshops and networking.

Career Ready Advantage Award
With the Career Ready Advantage Award, you’ll be rewarded as you develop industry-relevant skills during your degree and outside the classroom. Work towards a Silver, Gold or Platinum award and unlock opportunities to connect with industry and develop your leadership skills.

Develop the skills employers want
La Trobe’s Career Ready Advantage builds on the technical skills you learn in your course. It helps you develop the attributes employers are looking for: passion, empathy, curiosity and resilience. You’ll also learn:

• Communication and literacy
  Develop personal, written and digital communication skills to confidently engage, build relationships and work effectively with diverse groups of people.
• Personal and professional skills
  Learn how to manage yourself and others in the workplace with integrity, adaptability and emotional intelligence.
• Inquiry and analysis
  Build your critical thinking and research skills to interpret data and create innovative solutions for complex problems.

La Trobe Student Excellence Academy

The La Trobe Student Excellence Academy recognises the great things you’ve been doing both in and outside of class, like your achievements in ballet, football or music. Maybe you’ve been giving back to your local community, or innovating ideas that could make a difference on a world scale. Perhaps you’ve excelled in your studies, even when things got tough.

Whatever you’re excellent at, we’ll recognise and support your hard work and commitment. Because clever is about more than just book smarts. It’s about passion, courage and resilience.

As a member of our Excellence program, you’ll meet high-achieving peers who are as passionate and dedicated as you. Together, you’ll have access to exclusive events and opportunities while you study. You’ll be challenged, inspired and supported as you build on your strengths and develop your leadership skills.

Life-changing opportunities

As a member of the La Trobe Student Excellence Academy, you’ll have access to exclusive and exciting opportunities including:

- Priority access to industry mentoring and work placements. You could be mentored by the CEO of a major company, or gain an internship with the Carlton Football Club.
- Insights from community and industry leaders. Get insider tips from high-profile leaders at our Leadership Insights Seminar Series.
- Networking and educational events. Receive invitations to special events throughout the year, and get priority invitations to our La Trobe public lectures with past guests including Julian Burnside, Julie Bishop, Waleed Aly and Tim Costello.
- Lunch with the Vice-Chancellor. Take a seat at the table with the Vice-Chancellor to find out what it takes to succeed from La Trobe’s most senior leader.
- Tailored career support. Develop your personal brand and learn how to launch a successful career by showcasing your outstanding talents and experiences to employers.
- Represent La Trobe at national and international events. Get inspired and expand your world view with once-in-a-lifetime opportunities. You could travel overseas to represent La Trobe at a United Nations conference, or present on a topic close to your heart at a national conference.

Are you an outstanding sportsperson? A prolific artist? A passionate community activist? At La Trobe, we celebrate all kinds of clever. That’s why we’ve created the La Trobe Student Excellence Academy — the first of its kind in Australia — to recognise and support our students’ outstanding achievements in community, creativity, entrepreneurship, sports and study.

Life-changing opportunities

As a member of the La Trobe Student Excellence Academy, you’ll have access to exclusive and exciting opportunities including:

- Priority access to industry mentoring and work placements. You could be mentored by the CEO of a major company, or gain an internship with the Carlton Football Club.
- Insights from community and industry leaders. Get insider tips from high-profile leaders at our Leadership Insights Seminar Series.
- Networking and educational events. Receive invitations to special events throughout the year, and get priority invitations to our La Trobe public lectures with past guests including Julian Burnside, Julie Bishop, Waleed Aly and Tim Costello.

- Represent La Trobe at national and international events. Get inspired and expand your world view with once-in-a-lifetime opportunities. You could travel overseas to represent La Trobe at a United Nations conference, or present on a topic close to your heart at a national conference.

How do I join?

If you’re a high-achieving sportsperson, entrepreneur, community contributor, student or creative, you could be eligible to join La Trobe’s Excellence program. For more information about this exciting opportunity and how to apply, visit latrobe.edu.au/excellence-academy. Because clever is about more than just book smarts. It’s about passion, courage and resilience.
Aspire Early Admissions Program

Easing the pressure before uni begins

After years of involvement with the Cobram Scouts in Victoria’s Murray River region, Amabel Grinter’s loyalty paid off when she successfully applied for Aspire. She received a conditional offer for La Trobe’s Bachelor of Agricultural Science before she’d even finished Year 12. ‘Aspire was like having a security blanket. As an early entry program, it took the pressure off my Year 12 exams,’ says Amabel.

Aspire also helped Amabel find her feet before the semester started. ‘To visit the campus and meet other Aspire students was awesome. It meant things weren’t so foreign when I showed up on my first day.’

Opening doors at uni through volunteering

As a student at La Trobe, Amabel immersed herself in campus life, volunteering her time to tutor and mentor other students. This gave her the chance to develop leadership skills and confidence, and she made plenty of friends along the way.

Stephen Leitch, helping out with community sports, was an unexpected gateway to uni. He got an early offer into a Bachelor of Accounting through Aspire. ‘I’d helped out with cricket coaching and football umpiring in my community. When I found out this could help me get into uni, I applied for Aspire.’

I-Aspire

Are you an Indigenous student with a passion for community? The I-Aspire leadership program supports you to thrive with early offers to La Trobe and a range of activities including academic boot camp, a cultural immersion program and networking opportunities.

Learn more: latrobe.edu.au/i-aspire

Why choose Aspire?

• Get an early conditional offer into your chosen La Trobe course. We send out early Aspire offers in mid-September.
• Receive a minimum Aspire ATAR of 50.*
• Be introduced to life at La Trobe through our Enrichment Program.
• Attend on-campus networking events.
• Connect with like-minded peers.
• Gain access to on-campus support services.

*Excludes some professional degree programs
Scholarships can change lives

Do you have a burning desire to change the world? Or maybe you just want the chance to do what you love?

We believe everyone deserves the chance to succeed, so we’re helping more people access education with our huge range of scholarships. With access to education comes possibilities, and a good opportunity could change your life.

Our scholarships don’t just reward your academic or sporting performance. We also recognise your volunteer work or your contributions to the community. And if you’re having financial difficulties or you’ve experienced some kind of disadvantage, our scholarships offer a helping hand.

Our scholarships don’t just offer financial support. They give you access to mentorships, paid or unpaid work experience and industry contacts. There’s also the chance to become a paid university ambassador.

You can also access exclusive scholarships if you’re from a regional area, an Indigenous Australian, living on campus, studying at a regional campus or enrolled in a particular course.

Whatever your situation, whether you’re a La Trobe scholarship behind you, you’ll be supported to achieve your best.

How to submit a great scholarship application

It might look like a lot of work, but like anything good in life, the rewards are worth it. Just follow these tips and you’ll be well on your way.

- Apply early – this gives you time to make a really good application.
- Read the requirements first to make sure you’re eligible – it could save you a lot of tears later.
- Answer all questions in full.
- Use formal language.
- Outline your personal circumstances and how they relate to the scholarship.

Each year we give out...

Scholarships

Managing costs

University costs include the contribution you need to pay towards the overall cost of your course, a compulsory administration fee, money for textbooks and equipment, and living expenses.

Course costs

Commonwealth Supported Places

The Commonwealth Government subsidises undergraduate units of study for all Australian students, so you only have to pay part of the cost of your course. These are known as Commonwealth Supported Places (CSPs).

Learn more: latrobe.edu.au/costs

Student Services and Amenities Fee

La Trobe University charges a compulsory Student Services and Amenities Fee (SSAF) in each two-half-year period.

For more information, visit: latrobe.edu.au/ssaf

Financial assistance

HELP

You may be eligible for a loan via the government’s HELP scheme, which allows you to borrow the amount of your student contribution and pay it back once you’re earning over a certain amount.

To learn more, visit: studyassist.gov.au

Textbooks

Textbook prices can vary widely, so to help with expenses, all prescribed textbooks are available from the La Trobe library. Many are also available from second-hand bookshops.

Find out more: latrobe.edu.au/library

If you’re starting uni for the first time and you’ve experienced financial hardship or some kind of disadvantage, La Trobe’s Access Scholarship is for you.

You’ll get $3,000 for each year of your full-time course to help you out with your new uni adventure.

Learn more: latrobe.edu.au/access-scholarship
Choose your path to La Trobe

Picture the perfect course. Now imagine knowing for sure you’ll get there somehow. Maybe you’re a Year 12 student finishing up high school, or maybe you haven’t studied in a while. Either way, you know you’ve got options.

There’s more ways to get into university than you think. You can get in with your ATAR alone, or combine it with community service and be rewarded with a conditional early offer through our Aspire Early Admissions Program. You can get a head start by studying two first-year uni subjects through VCE Plus while still at high school. Or, you could complete a Diploma with La Trobe College Australia and get direct entry into a La Trobe degree.

Whatever your story, remember there are plenty of ways to get into your dream course.

Learn more: latrobe.edu.au/pathways

1. Some students may be able to apply direct. Contact us to learn more
2. Only available to VCE students

Entry schemes
Depending on your circumstances, you could be eligible for one of our entry schemes. These schemes take your experiences, skills and background into account along with your uni application.

Learn more: latrobe.edu.au/entry-schemes
How to apply

So, you’ve decided to study, you’ve weighed up your options and you’ve found a course that’s right for you. Now it’s time to apply for that course.

So what are you waiting for? Here’s how to apply in seven easy steps.

1. Find the perfect course
   - A quick look through this guide is a great place to start. To find out more details, take a look at our website: latrobe.edu.au/courses
   - Want to speak to someone about our courses? Call 1300 135 045

2. Check entry schemes
   - You may be eligible for a special entry program: latrobe.edu.au/entry-schemes

3. Check your pathway options
   - Don’t meet the entry requirements? There might be another way. Take a look at your pathway options: latrobe.edu.au/pathways

4. Check your course requirements
   - Make sure you meet your course’s general requirements. These include your English language requirements or any additional prerequisites.
   - Year 12 students: Check out your course’s ATAR rank from the previous year.

5. Visit us
   - Come and get a taste of life at La Trobe: latrobe.edu.au/events
   - Or, get in touch with any questions: latrobe.edu.au/undergrad

6. Apply
   - Year 12 students: Apply through VTAC
   - Non-Year 12 applicants: Haven’t applied through VTAC? You could be eligible to apply directly to La Trobe: latrobe.edu.au/apply-direct

7. Accept your offer
   - Congratulations! If you’ve received an offer, go right ahead. Accept your place and enrol online. Welcome to your new life at La Trobe.
If you’re into parkland beauty combined with a vibrant campus culture filled with cafes, shops and a multi-level library, then explore La Trobe’s Melbourne Campus. It’s one of Australia’s largest. Wherever you come from around the world, you’ll have access to state-of-the-art facilities, including our brand new tech and business labs, the La Trobe Institute for Molecular Science and our very own Wildlife Sanctuary.

La Trobe University Undergraduate Guide 2020

Study in regional Victoria

Enjoy the unique benefits of studying at a La Trobe regional campus, with a personalised study environment and great career opportunities.

Most importantly, when you walk onto any La Trobe campus, you’ll have access to the same academic, research and industry expertise across all our locations.

Regional campuses

Bendigo Campus
Get the best of the city and the country at our Bendigo Campus. You’ll join more than 5,000 students at La Trobe’s second-biggest campus, and you’ll be studying at the region’s largest provider of higher education. You can take your pick from more than 50 degrees, and with the CBD just nearby, it’s the perfect place to live and learn. It’s a great time to start, as we’ve just given the campus a $50 million upgrade, so you’ll benefit from world-class learning facilities as you prepare for your future career.

5,000+ students
Learn more: latrobe.edu.au/bendigo

Shepparton Campus
Become part of a rich sporting and cultural community at our Shepparton campus, located in the beautiful Goulburn Valley. Study in the heart of Shepparton with high-standard teaching and study facilities including our clinical learning unit with advanced teaching technologies. You’ll get a personalised study experience thanks to our connections to the local community and industry, and gain hands-on experience through industry placement opportunities.

700+ students
Learn more: latrobe.edu.au/shepparton

Albury-Wodonga Campus
Study by the Murray River and nearby snowfields at our Albury-Wodonga campus. With plenty of employment, cultural and sporting opportunities, it’s a great place to live, study and thrive. You’ll get a personalised learning experience with our friendly staff, plus access to great on-site facilities and La Trobe’s university-wide resources.

800+ students
Learn more: latrobe.edu.au/aw

Mildura Campus
Mildura is a great place to live, study, work and play. Be a part of a strong arts and agricultural community, with nearby access to nature’s playground at Mungo National Park and the Murray River. We’ve got close ties to the local community through industry partnerships and placement opportunities, which means you’ll get a personalised learning experience with promising employment outcomes.

500+ students

Undergraduate Guide 2020
Stress-free living

If you’re living away from home for the first time, you might be wondering how you’ll go. Don’t worry, we’ve got you covered. You’ll feel at home in no time with the help of our dedicated support staff, and you’ll even have access to free academic mentoring and a textbook borrowing scheme. There’s 24/7 help available, plus a range of events and wellbeing programs to help you stay happy and healthy. And what about food? With cooking classes, a ‘free food’ pantry and dining hall dinners, you’ve got plenty of options.

Classes are just a short walk away

We can’t stress how good this is. And just think of the money and time you’ll save on transport. Plus, with home just minutes away, you’re in a position to make the most of everything else that’s on campus. Like all the amazing events and facilities.

So much access

Living on campus is like a candy store for students. You’ve got access to study areas, computer labs, gyms, gaming rooms, home cinemas, chill-out areas and every on-campus event you can imagine. There are food truck days, cultural events, public lectures and so much more. To top things off, most of it is free, and you know you’re getting the absolute most out of your life at La Trobe.

Options to suit you

Whether you’re looking for a quiet place to study or a vibrant, social atmosphere, we’ve got accommodation options to suit you at our Melbourne, Bendigo and Albury-Wodonga campuses. For a social vibe, you might choose a residential college. Or maybe a self-contained unit is more your style. Looking to study at one of our other campuses? Take a look at our off-campus accommodation database. There are lots of affordable and convenient options available. It’s just a matter of finding the perfect fit.

Be part of a community

Every year, we welcome new students just like you into our community. We know how to help you feel at home right away, and our orientation events and activities will have you making friends in no time. All of our residential colleges have common spaces where you can hang out with friends and meet new people. There are places to chat, watch a movie or even play a game of table tennis. You can also join in social activities throughout the year. Think open mic nights, yoga, cooking classes, rock climbing and more. There’s sure to be something you’ll love.

Five reasons you’ll love living on campus

Imagine waking up and realising there’s only 15 minutes until class. Momentary panic is replaced by a sigh of relief as you remember it’s literally within walking distance. That’s no small thing, but did you know about the other perks of living on campus?

Want to find out more? Of course you do: latrobe.edu.au/accommodation
Key terms

HELP
An Australian Government loan scheme to help eligible students enrolled in a CSP pay their student contributions.

Honours
Honours studies are advanced studies attached to undergraduate degrees, giving you a higher qualification than a three-year degree. Many people do Honours so they can go on to postgraduate studies, and most La Trobe undergraduate courses offer Honours. Depending on your course, this may involve an additional year of study, although some courses have it built in.

Major
A sequence of related subjects spread over the duration of an undergraduate course. You’ll usually undertake at least one subject from your major each semester, and you have to pass each subject in order to move on to the next one in the sequence.

Non-Year 12 applicants
There are many options for applicants who are not current Year 12 students. These include the Special Tertiary Admissions Test (STAT), Work Recognition Program and Tertiary Preparation Program.

Pathways
The different educational options leading to a particular qualification. For example, Year 12 is one pathway to a uni course. Year 12 to TAFE to uni is another pathway. Read more on pages 20 and 21.

Postgraduate
The second level of university study. Usually, you can only begin postgraduate studies once you’ve completed an undergraduate degree.

Prerequisites
The subjects you must have completed at school (and/or any other qualifications you need) to be eligible for consideration in a specific uni course.

TAFE
Technical and Further Education.

Undergraduate
The first level of university study. This usually refers to a three-year single Bachelor’s degree, although it also includes Honours studies, which can take an additional year. There are also double degrees that usually take at least four years full-time.

VET
Vocational Education and Training.

Industry placements
Industry placements integrate educational theory and workplace experience, preparing you to be work ready, world ready and future ready.
Curious to find out what you could study at La Trobe? Already know what you’re looking for? Find the course of your dreams below.

### Undergraduate Guide 2020

*ATAR scores are not published for courses with fewer than five ATAR-based offers made.*

---

1. The ATARs published in this guide are correct as of round 1 2019. Please refer to the website for current information.
Clever is...

- **Learning from the best** at a top-ranking university. We offer subjects ranked in the world’s top 100, and our archaeology research is rated well above world standard.
- **Putting theory into practice** with professional placements in Australia and overseas. You could gain a global perspective, learn a new language or even get financial support for your overseas experience.
- **Getting job ready** in industry-standard facilities, including our live-broadcast studio, where you’ll get the hands-on skills needed to stand out in your future workplace.

1. [Levelling Up: How to Win in the Skills Economy](https://www.payscale.com/research/AU/Salary%3A_Career) 2016 (Payscale Inc)
2. [Times Higher Education Rankings by Subject](https://www.timeshighereducation.com/) 2019
3. [QS World University Rankings by Subject](https://www.qs.com/education/university-rankings/) 2019
4. [Excellence in Research Australia](https://www.era.gov.au/) 2015

Whatever you choose, you know it’s going to be good. Our Arts and Humanities subjects are ranked in the world’s top one per cent and our teachers are passionate, knowledgeable and experienced. If you’re ready to see the world differently and open up your future career possibilities, then get ready to study an arts degree from La Trobe.

---

1. This major must be taken as a second major and studied alongside another area of study within arts. 2. See online for a full list of entry requirements, including ATAR and non-Year 12 students.
Bachelor of Laws/Bachelor of Arts

latrobe.edu.au/lwab

Challenge the way you think. Build your expertise in areas like politics, languages, sociology and media studies. Study law subjects and get hands-on experience through work placement programs. Graduate ready to start a career in areas like entertainment law, publishing, public relations, international business, diplomacy, management or government.

Prerequisites
VCE Units 3 and 4 a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.¹

Bachelor of Laws/Bachelor of International Relations

latrobe.edu.au/lwir

Prepare for an international career. Complement your knowledge of international politics, economics and diplomacy with the study of Australian and international law. Take elective in law, sociology, the global economy, diplomacy, modern political thought, social change and conflict. Graduate ready for a career in international law, business or government.

Prerequisites
VCE Units 3 and 4 a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.¹

Bachelor of Laws/Bachelor of Media and Communication

latrobe.edu.au/lwmc

Gain an innovative legal education with practical insights into the media. Study the compulsory law subjects required to apply for admission to the legal profession in Victoria. Study electives like international advocacy, clinical legal education, mediation and negotiation. Major in media industries, journalism or public relations. Graduate ready for a career in law and the media.

Prerequisites
VCE Units 3 and 4 a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.¹

Bachelor of Laws/Bachelor of Politics, Philosophy and Economics

latrobe.edu.au/lwpp

Gain an in-depth understanding of how society is structured and how it functions. Gain skills in analysis and critical thinking, economic theory, markets, competition and international relations. Study politics, economics, critical thinking, international relations and philosophy. Graduate ready for your career in government, business and non-governmental organisations.

Prerequisites
VCE Units 3 and 4 a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.¹

Bachelor of Urban, Rural and Environmental Planning

latrobe.edu.au/lurrep

Shape communities and establish peaceful, productive and environmentally sustainable places to live. Explore ways to improve how we live and interact, from policy planning and local politics to urban design and transport. Focus on communication, mediation, negotiation and community relations. Graduate ready to begin your career in planning.

Prerequisites
VCE Units 3 and 4 a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.¹

Bachelor of Arts

latrobe.edu.au/lba

Combine your knowledge of arts subjects with electives in politics, economics, languages and business. Graduate ready for a career in public relations or law. Complement your communication subjects with electives such as politics, languages, media production, history, English, economics, sciences, IT and health. Graduate ready to start a mix exciting and varied industry.

Majors
Journalism / Media industries / Public relations / Sport journalism

Prerequisites
VCE Units 3 and 4 a study score of at least 35 in English (EAL) or at least 30 in English other than EAL.¹

Bachelor of Media and Communication

latrobe.edu.au/lbmc

Kick-start your career as an adaptable, multi-skilled media professional. Major in journalism, sport journalism, media industries or public relations. Complement your communication subjects with electives such as politics, languages, media production, history, English, economics, sciences, IT and health. Graduate ready to start in an exciting and varied industry.

Majors
Journalism / Media industries / Public relations / Sport journalism

Prerequisites
VCE Units 3 and 4 a study score of at least 35 in English (EAL) or at least 30 in English other than EAL.¹

Honours degrees

Once you’ve completed your Bachelor’s degree, you can extend your knowledge and skills by taking an Honours year. See online for course details.

Bachelor of Arts with Honours

latrobe.edu.au/lba

Bachelor of Arts (Religion/Theology) with Honours

latrobe.edu.au/lba

Bachelor of Arts (Dissertation) with Honours

latrobe.edu.au/lba

Bachelor of Creative Arts with Honours

latrobe.edu.au/lba

Bachelor of International Relations with Honours

latrobe.edu.au/lba

1. See online for a full list of entry requirements, including ATAR and non-Year 12 students
2. Majors available: journalism, media industries, public relations
3. ATAR scores are not published for courses with fewer than five ATAR-based offers made

Business and commerce

Uber, PayPal, Spotify, Tap and Pay. Innovations like these have revolutionised our economy. Transactions are instant, highly personalised and sharply targeted. Business and technology have become inseparable. With a degree from La Trobe, you’ll know how to unlock technology’s potential to help businesses perform better.

But what about the human element? As data flows in, clever professionals are in more demand than ever. We need adaptive and visionary people to help shape the next phase of business.

At La Trobe, we give you a well-rounded view of business. On one hand, you’ll gain the tech-savvy, forward-thinking skills to make your mark in the future of business. Importantly, you’ll also develop the emotional intelligence and interpersonal skills to thrive in a diverse workplace.

We live and breathe innovation, and your education is no different. You’ll develop solid technical and enterprise skills through interactive learning. Think business simulations, field visits and mentoring. You’ll show the world what you’ve got in work placements. Think managing the Australian Ballet in Beijing, or joining the ranks at KPMG.

We know you’ll love studying at La Trobe. Our Business School stands up with the best in the world. And with a degree in business or commerce from La Trobe, so will you.

Clever is...
- Getting a world-class education with the world’s top 100 Tourism Management subjects1 and the world’s top-200 Accounting and Finance subjects.2
- Learning from the best with our Professors of Practice: the influential, high-achieving industry professionals who co-design and teach our degrees.
- Getting job ready as you develop your agility and problem-solving skills in interactive, project-based learning environments.
- Putting it into practice with work placements in your industry.
- Getting a global perspective with international study tours and overseas electives.

Market researcher
Media relations officer
Social media coordinator

Business and commerce

La Trobe University
Undergraduate Guide 2020
Bachelor of Business/Bachelor of Arts

Understand business and the wider world. Learn skills in critical analysis, problem-solving and communication.

Study business disciplines, accounting, economics, finance, management and marketing. Combine your business knowledge with humanities, research and communication skills. Graduate with highly sought-after skills for the business, community, commerce and government sectors.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 30 in English other than EAL.

Bachelor of Business Analytics

Join the fast-growing world of business analytics. Learn how to identify and solve business challenges through strategic analysis of data sources. Develop your problem-solving, critical thinking and communication skills across a variety of business disciplines. Graduate ready for a career as a business analyst, innovation consultant or project manager.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 30 in English other than EAL.

Bachelor of Commerce

Build a successful career in business. Major in accounting, economics, finance, management or marketing. Learn research, critical thinking, communication, problem-solving, digital literacy and teamwork. Work in teams to negotiate solutions to problems. Graduate with the technical, business and enterprise skills that give you a competitive edge in the workforce.

Majors
- Accounting
- Economics
- Finance
- Management
- Marketing

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 30 in English other than EAL.

Bachelor of Commerce/Bachelor of Agricultural Sciences

Help farmers improve food production and reduce the impact on declining resources. Major in accounting, economics, finance, management and marketing. Learn about plants, animals, soil and climate. Study plant science, land and soil management, animal physiology, pest control, groundwater sustainability and contamination. Start your career in agribusiness.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 30 in English other than EAL.

Bachelor of Commerce/Bachelor of Biomedicine

Combine commerce, biology and medicine. In commerce, you’ll major in accounting, economics, finance, management or marketing. In biomedicine, you’ll study anatomy, biochemistry, microbiology, pharmacology, genetics, immunology, cell and molecular biology, physiology and neuroscience. Graduate ready for a career in biotechnology, medical research and the pharmaceutical industry.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

Bachelor of Commerce/Bachelor of Computer Science

Qualify for a professional position in accounting, economics, finance, marketing or management and apply your business skills to commercialise your software program or app. Study hardware, software and object-oriented systems. In commerce, major in accounting, economics, finance, management or marketing. Start your career in IT, business or software development.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 30 in English other than EAL, and a study score of at least 30 in one of Mathematics Methods (year 12) or Mathematics Specialist (year 12).

Bachelor of Commerce/Bachelor of Health Sciences

Become a business and health science professional. In commerce, you’ll major in accounting, economics, finance, management or marketing. In health science, you’ll major in public health, rehabilitation counselling or human physiology and anatomy. Graduate ready to apply your commercial skills to the management of health institutions and practices.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 30 in English other than EAL, and a study score of at least 30 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

1. See online for a full list of entry requirements, including ATAR and non-Year 12 students
2. Please note: information about this course is subject to change, as the course has not completed La Trobe University approval processes. Following course approval, accreditation by the relevant professional body will be sought. For the most current information, visit: latrobe.edu.au

ATAR scores are not published for courses with fewer than five ATAR-based offers made
NC New course
Bachelor of Commerce/Bachelor of International Relations  
latrobe.edu.au/lzcoms

Qualify for a professional position in accounting, economics, finance, marketing or management and gain an international perspective. Learn to apply commercial skills to the management of international institutions, multinational companies, NGOs and public service agencies. Graduate ready for your career in international business, non-governmental organisations and the public service.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 30 in English other than EAL.¹

ATAR 90.5 4 years

Bachelor of Commerce/Bachelor of Laws  
latrobe.edu.au/lzcoml

Broaden your career options. In commerce, you’ll major in accounting, economics, finance, management and marketing. In law, you’ll study the compulsory law subjects required to apply for admission to the legal profession in Victoria. Learn the high-level skills in analysis, advocacy, mediation and negotiation you need to succeed in any business or law environment.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 35 in English other than EAL.¹

ATAR 91.6 5 years

Bachelor of Commerce/Bachelor of Psychological Science  
latrobe.edu.au/lzcomps

Understand how business and psychological science intersect across the economies, finance, management and marketing. Learn how to solve complex problems faced by today’s organisations from a multidisciplinary standpoint. Graduate ready to pursue a career in a range of fields including human resources, management, marketing, accounting, economics, finance and human services.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 40 in English other than EAL.¹

ATAR 93 4 years

Bachelor of Commerce/Bachelor of Science  
latrobe.edu.au/lzcoms

Gain a competitive edge in the workforce. In commerce, you’ll major in accounting, economics, finance, management or marketing. Learn the skills of research, critical thinking, communication, problem-solving, digital literacy and teamwork. Science majors include botany, genetics, chemistry and agricultural science. Graduate ready for your career in business or science.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 30 in English other than EAL, and a study score of at least 30 in any Mathematics.¹

ATAR 86.75 4 years

Bachelor of Digital Business  
latrobe.edu.au/lzdb

Get ready for a flexible career in the modern world of business. Learn the fundamentals of business and unlock technology’s potential to improve business performance. Develop technical and practical business skills in disciplines including marketing, accounting and economics. Graduate highly employable across a range of settings with this versatile degree.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 30 in English other than EAL.¹

ATAR 95 3 years

Bachelor of Finance  
latrobe.edu.au/lzfinance

Prepare for a career in the fast-paced world of finance. Study corporate and international finance, investment valuation, portfolio management and risk management. Choose electives in financial and estate planning, derivative securities, mergers, acquisitions and security valuation. Graduate ready for your career in high finance, business or financial services.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 30 in English other than EAL.¹

ATAR 63.75 2 years

Bachelor of International Business  
latrobe.edu.au/lzintbus

Gain a business degree with an international perspective. Study accounting, finance, economics, human resource management and marketing. Forward-thinking facilities

Prepare for the ever-shifting world of business at our refurbished Donald Whitehead Building, based at our Melbourne Campus. Take advantage of amazing new teaching spaces, before immersing yourself in innovative study nooks. Working on group projects? Brainstorm your entrepreneurial ideas in our think tanks. To top it all off, there’s the simulation trading floor, where you’ll react to real-world scenarios with live market data.

‘We need to think laterally, think differently. We can’t be doing the same things we’re doing today, because they aren’t going to be relevant into the future. So, human skills are vitally important to the future.’

Marnie Baker
La Trobe University graduate
CEO, Bendigo and Adelaide Bank

Education and teaching

We’ve all had that one teacher we’ll never forget. The one that helped us understand that impossible maths question. That made any subject seem interesting. Or always had time to help us.

Are you ready to inspire a new generation? With the right degree, you’ll be well on your way.

But how do you learn how to teach? With a degree from La Trobe, you’ll help shape the minds of the future, with practical skills taught by passionate educators. At the same time, you’ll learn people skills. How to communicate. How to relate. These flexible skills give you an edge as you head into the teaching jobs of the future.

Teaching isn’t just books and numbers, so our courses give you plenty of options. You could end up working in early learning, schools, the outdoors or community organisations around the country, or even overseas. Whatever you choose to teach, you’ll learn how to do it from some of the best. Our highly experienced educators are your direct connection to the industry, and they’re with you every step as you learn with your peers and head out into placements.

And when it’s time to get a job? With a practical skillset and a network of potential employers, you’ll graduate with a competitive edge. You’ll be ready to inspire a new generation.

Clever is...

• Learning from passionate academics with Education and Training subjects ranked in the top 200 globally.

• Gaining valuable industry insights with courses designed in partnership with schools and communities around Victoria.

• Getting a global perspective with an overseas placement.

• Making connections and experiencing school life through a placement with a local partner.

• Graduating classroom ready with a foundational first year that introduces national literacy and numeracy standards.

1. The QS World University Rankings by Subject 2019

Government entry requirements for teachers

As part of your application for admission into a La Trobe accredited teacher education course, you’ll need to complete a CASPer (Computer-based Assessment for Sampling Personal Characteristics) test.

Learn more: latrobe.edu.au/casper
Bachelor of Early Childhood and Primary Education

Learn how to support learning and development in children from birth to adolescence. Build your knowledge in literacy and numeracy, learning in the 21st century and Indigenous studies. Take specialist subjects to help children of all developmental levels. Complete 101 days of work placement and graduate ready to teach.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL, and VCE Units 1 and 2: satisfactory completion of one of Mathematics General, Mathematics Methods or Mathematical Methods or Specialist Mathematics or VCE Units 3 and 4: any Mathematics.¹

Bachelor of Early Childhood Education

Combine your Bachelor of Early Childhood Education with flexible studies. La Trobe’s Bachelor of Early Childhood Education allows professionals working in the childcare profession to upgrade to a Bachelor qualification. Designed to fit around your working life, this course is delivered online with no on-campus attendance required.

Prerequisites
Applicants must have a Diploma of Early Childhood Education and Care or equivalent qualification.¹

Bachelor of Education (Primary)

Make a positive impact on children’s lives. Specialise in STEAM, English, humanities, physical education or languages. Understand diagnostic teaching, special needs learning and skill building. Develop strong knowledge around professional literacy, numeracy and contemporary learning. Complete 80 days of work placement and graduate ready for your teaching career.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL, and VCE Units 1 and 2: satisfactory completion of one of Mathematics General, Mathematics Methods or Mathematical Methods or Specialist Mathematics or VCE Units 3 and 4: any Mathematics.¹

Bachelor of Education (Secondary)

One good teacher makes a world of difference. Learn to address the diverse academic and developmental needs of young people. Specialise in English, maths, humanities, science, languages, TESOL, physical education, health education, visual arts, drama and psychology. Complete 80 days of work placement and graduate as a secondary school teacher.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL, and VCE Units 1 and 2: satisfactory completion of one of Mathematics General, Mathematics Methods or Mathematical Methods or Specialist Mathematics or VCE Units 3 and 4: any Mathematics.¹

Bachelor of Educational Studies

Start on the path to education and teaching. Develop fundamental critical thinking skills, knowledge in contemporary education theory, student development, literacy, numeracy and choose from a range of electives. Transition into the Bachelor of Education (Primary or Secondary)² or on completion, you can apply to commence the Graduate Entry Teaching programs.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.¹

Bachelor of Outdoor Recreation Education

Study the latest communication, science, environmental and outdoor education and build your confidence through fieldwork experience. Study leadership, safety and environmental and social responsibility. Complete 160 days of fieldwork experience. Graduate ready for your career teaching in the great outdoors.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.¹

Bachelor of Physical, Health and Outdoor Education

This is your pathway into the education and training professions. Cover environmental and sustainability education, safety and risk management, leadership, exercise physiology, sports biomechanics, movement studies and skill analysis. This course is a pathway into a Master’s Degree for graduates wishing to qualify as teachers.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.¹

Bachelor of Technology Education

This specialisation prepares you to teach technology studies in secondary education and includes preparatory subjects for Vocational Education and Training (VET) teaching. You’ll be able to integrate strands of studies that include design and technologies in the years 7-12 curriculum.

Prerequisites
See online for entry requirements.
Imagine walking away from your job knowing you’ve made a difference in someone’s life. Imagine knowing how to help someone walk again. Speak again. As a healthcare specialist, you’ve got the potential to do this every day.

A degree from La Trobe gives the skills you need to help others now and in the future. With digital technology becoming the norm, you’ll graduate with practical skills in the latest emerging tools.

If you’re wondering what a career in healthcare looks like, you’ll get a three-dimensional view of the industry at La Trobe. On the one hand, you’ll gain practical knowledge and skills to protect and promote health in hospitals and communities. From another angle, you’ll obtain industry insights from our experienced academic staff. And then you get to put it all into practice in your clinical placements.

With your newfound understanding of technology in health, you’ll know how to use it to improve the lives of others. That’s an edge in a modern workforce. You’ll also be at the centre of a globally recognised health research hub. Our research in medical and health sciences is rated well above world standard, and our nursing subjects ranked in the top 100 globally.

By the time you graduate, you’ll be ready. You’ll have the essential skills and digital know-how to thrive in the modern workplace. You’ll be ready to launch your career in healthcare with your degree from La Trobe.

Clever is...

- Gaining hands-on experience through on-campus allied health clinics.
- Learning in some of Victoria’s best hospitals through our on-site clinical schools.
- Developing a global understanding of health with Study Abroad.
- Becoming job-ready beyond city limits with La Trobe’s Rural Health School.
- Attending a university ranked in the world’s top 250 for clinical, preclinical and health subjects.
- Preparing for the future of healthcare with a digital-ready degree from La Trobe.

Apply your knowledge across cardiology, neurology, musculoskeletal dysfunction, women’s health and paediatrics. Graduate ready to help patients recuperate from physical disabilities and movement disorders.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry or Mathematics, Physical Education or Physics.

**ATAR**
91.1

**Gain credit towards this degree**
Yes

**Course duration**
2 years

**Diploma of Health Sciences (8-12 months)**
Gain credit towards this degree

Bachelor of Applied Science and Master of Speech Pathology

Identify, treat and help issues with speech and language problems, stuttering, voice and swallowing difficulties. Study biosciences, the factors influencing health, communication development, linguistics, general psychology and anatomy. Complete a clinical placement and graduate ready to help people with their speech.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry or Mathematics, Physical Education or Physics.

**ATAR**
89.85

**Gain credit towards this degree**
Yes

**Course duration**
2 years

**Diploma of Health Sciences (8-12 months)**
Gain credit towards this degree

Bachelor of Arts/Bachelor of Health Sciences

Study health from a social perspective. Choose to major in human physiology and anatomy, public health or rehabilitation counselling. Your arts subjects may include gender studies, anthropology, archaeology and philosophy as they relate to health and health sciences. Graduate ready to find work in public health, planning and counselling.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 25 in one of Biology, Chemistry or Mathematics, Physical Education or Physics.

**ATAR**
59.2

**Gain credit towards this degree**
Yes

**Course duration**
4 years

Bachelor of Biomedical Science

Learn about the human body, its structures and functions. Combine biology, pharmacology and medicine with aspects of anatomy, biochemistry, microbiology, genetics, immunology, molecular biology, physiology and neuroscience. Graduate ready for further study or a career in biotechnology, medical research or the pharmaceutical industry.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

**ATAR**
61.05

**Gain credit towards this degree**
Yes

**Course duration**
2 years

**Diploma of Bioscience (8-12 months)**
Graduate ready for further study or a career in biotechnology, medical research or the pharmaceutical industry.

Bachelor of Biomedical Science (Medical)

Help address the shortage of medical professionals in regional areas. Develop the knowledge and skills to explore the underlying molecular basis of acute and chronic illnesses. Learn how to apply biomedical research and convey scientific information. This degree offers a pathway to the Doctor of Medicine (Rural) at the University of Melbourne in Shepparton.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 25 in Chemistry.

**ATAR**
89.05

**Gain credit towards this degree**
Yes

**Course duration**
3 years

**Diploma of Bioscience (8-12 months)**
Graduate ready for further study or a career in biotechnology, medical research or the pharmaceutical industry.

Bachelor of Biomedicine

Explore the underlying causes of disease. Study aspects of anatomy, biochemistry, microbiology, pharmacology, genetics, immunology, cell and molecular biology, physiology and neuroscience. Develop practical skills, learn how to meaningfully convey scientific information and graduate ready for a career in biotechnology, medical research or the pharmaceutical industry.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

**ATAR**
60.15

**Gain credit towards this degree**
Yes

**Course duration**
2 years

**Diploma of Bioscience (8-12 months)**
Graduate ready for further study or a career in biotechnology, medical research or the pharmaceutical industry.

Bachelor of Commerce/Bachelor of Biomedicine

Combine commerce and biomedicine. In commerce, you’ll major in accounting, economics, finance, management or marketing. In biomedicine, you’ll study anatomy, biochemistry, microbiology, pharmacology, genetics, immunology, cell and molecular biology, physiology and neuroscience. Graduate ready for a career in biotechnology, medical research and the pharmaceutical industry.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

**ATAR**
81.85

**Gain credit towards this degree**
Yes

**Course duration**
4 years

**Diploma of Bioscience (8-12 months)**
Graduate ready for further study or a career in biotechnology, medical research and the pharmaceutical industry.

1. See online for a full list of entry requirements, including non-Year 12 students.
2. Please refer to the La Trobe College Australia website for more information.
3. Allied Health: Students in Melbourne, Albury-Wodonga and Shepparton students will only undertake their first year at their respective campuses and complete the remainder of their course at the Bendigo Campus.
Bachelor of Commerce/Bachelor of Health Sciences

Become a business and health science professional. In commerce, you’ll major in accounting, economics, finance, management or marketing. In health science, you’ll major in public health, rehabilitation counselling, or human physiology and anatomy. Graduates ready to apply your commercial skills to the management of health institutions and practices.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL, and a study score of at least 30 in one of Biology, Chemistry, or Mathematics, Physical Education or Physics.

Bachelor of Dental Science (Honours)

Prepare for a successful career in dentistry. Study human biosciences, public health, dental science and all aspects of oral health practice. Explore the differences between rural and urban health and how these relate to health policy. Gain industry experience undertaking clinical placements and participating in community-based health promotion programs.

Expected prerequisites
VCE Units 3 and 4: a study score of at least 35 in any English; and a study score of at least 25 in Biology; and a study score of at least 25 in Chemistry.

Bachelor of Exercise Science

Gain a comprehensive understanding of the human body and mind. Learn anatomy, biomechanics, exercise psychology and physiology. Learn how to change community behaviours, fine-tune individual training and work with groups such as the elderly, adolescents and athletes undergoing rehabilitation. Graduate ready for careers in health, sports and fitness.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 20 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.

Bachelor of Exercise Science and Master of Exercise Physiology

Combine the study of human movement with an understanding of how exercise is used for rehabilitation, disease management and injury prevention. Study motor control, exercise physiology, biomechanics, anatomy and how to modify health behaviours. Complete a clinical placement and graduate ready for a career as an exercise physiologist.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 20 in two of Biology, Chemistry, any Mathematics, Physical Education or Physics.

Bachelor of Food and Nutrition

Suit ready for your career in health promotion. Study biosciences, principles of nutrition, food science and food ethics, nutrition and disease, nutritional needs over the lifespan and for sports performance, and social and public health aspects of nutrition. Graduate ready to find work in government, community health, food manufacturing and sports clubs.

Bachelor of Pharmacy

Our distinctive health degrees prepare you for the world of work. Our graduates work in hospital, early intervention centres, private practices and research institutions. Potential jobs include:

Health management
Clinical coder
Health administration officer
Health information manager
Health policy advisor
Health promotion officer
Occupational health and safety advisor

Nursing and midwifery
Clinical midwifery consultant
Midwife
Midwifery unit manager
Nursing unit manager
Registered nurse

Dentistry and oral health
Dentist
Oral health therapist

Psychology and social work
Market researcher
Probation and parole officer
Psychologist
Social worker
Bachelor of Health Sciences

Make a positive difference to people and communities. Study medical research, community health, rehabilitation, counselling, athlete welfare, environmental health, human biosciences, the role of health professionals and the factors that influence health. Graduate ready for a career in health.

**Majors**
- Human physiology and anatomy
- Public health
- Health promotion
- Rehabilitation counselling
- Sports counselling
- Athlete welfare

**Bendigo**
- Public health (health promotion) + health and sustainability (Rehabilitation counselling) + Sports counselling + Athlete welfare

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English, other than EAL; and a study score of at least 30 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

**Bachelor of Health Sciences (Medical Classification)/ Bachelor of Health Information Management**

Understand the clinical and business sides of health care. Study anatomy, physiology, medical terminology, management of electronic health information systems, electronic medical records, coding and classification of diseases, health data analysis and health information ethics and law. Graduate ready for a career managing health information across a variety of industries.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English, other than EAL; and a study score of at least 25 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

**Bachelor of Health Sciences**

Enter 2nd year of this degree

**Bachelor of Human Nutrition**

Help people make better choices about food. Study the value of food, human biosciences, nutritional science, food chemistry, disease and research methods. Graduate ready for postgraduate study or a variety of careers in the promotion of nutrition to individuals and communities.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English, other than EAL; and a study score of at least 25 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

**Bachelor of Human Services and Master of Social Work**

Prepared human services and social justice. Study psychology, sociology, social work theories, community service organisations and the needs of individuals, families and groups. Develop your interpersonal skills and complete 140 days of work placement. Graduate ready for a career in social services.

**Prerequisites**
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English, other than EAL; and a study score of at least 25 in one of Biology, Chemistry, any Mathematics, Physical Education or Physics.

1. See online for a full list of entry requirements, including non-Year 12 students.
2. Sydney mid-year intake is subject to available places.
3. From 2021, the University intends to replace the Bachelor of Human Services and Master of Social Work with a Bachelor of Social Work (Honours).

*(This degree is offered through La Trobe Education partner. See online for details)*

*ATAR scores are not published for courses with fewer than five ATAR-based offers made*

*STP (Study Period)*

*NA: ATAR not applicable*
Bachelor of Nursing (Pre-registration) latrobe.edu.au/hbn

Quality to become a registered nurse. Study health assessment, nursing research, Indigenous health, mental health nursing, recognising and responding to the deteriorating patient and nursing people with chronic illnesses. Complete work placements at leading Victorian hospitals and graduate ready for a life-changing career.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 35 in English other than EAL,¹
MEL (HBR) Sem 2
MEL (HBRN) Sem 2
MEL (HBRP) Sem 2
MEL (HBRM) Sem 2
SHP (VHCPL) Sem 2
ATAR 64-85 2 years

Bachelor of Nursing/Bachelor of Midwifery latrobe.edu.au/nznm

Gain the practical and theoretical knowledge to be a confident, respected and capable midwife and nurse. With 1,800 hours of placement in clinical setting, you’ll learn the fundamentals of nursing and midwifery alongside subjects in human biosciences and public health. Graduate as a highly employable and valued healthcare professional.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 35 in English other than EAL,¹
MEL (NMBR) Sem 1
MEL (NMBR0) Sem 1
ATAR 66-2 4 years

Bachelor of Nursing/Bachelor of Psychological Science latrobe.edu.au/hbps

Combine your health interests and broaden your career opportunities. Gain a foundational understanding of cognitive, developmental, social, emotional, and clinical and health psychology. Study clinical nursing subjects and practice nursing care for people of all ages. Graduate with flexible pathways towards careers in clinical nursing, specialised mental health nursing practice, rehabilitation counselling, psychology, research and more.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 35 in English other than EAL,¹
MEL (HPSP) Sem 1
ATAR 62-5 4 years

Bachelor of Oral Health Science latrobe.edu.au/hothob

Support the prevention of both dental and oral health diseases and related conditions. Study principles of prevention, dentistry, public health, human biosciences and determinants of health. Practice your skills in different oral health placements in a clinical setting. Gain experience in the oral health and dental delivery of care for people in remote, rural, and urban areas.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 35 in English other than EAL,¹
MEL (OHHSB) Sem 1
ATAR 64-9 4 years (accelerated)

Bachelor of Orthoptics (Honours)³ Proposed course

La Trobe is Australia’s largest and longest standing provider of orthoptics education. Learn to diagnose and treat vision and eye problems in children and adults. Put knowledge into practice with clinical placements in Victoria’s leading hospitals. In final year, you’ll broaden your experience with a placement in regional Australia or overseas.

Expected prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 35 in English other than EAL,¹
MEL 1st
ATAR 56 4 years

Bachelor of Paramedic Practice with Honours latrobe.edu.au/hpppb

Your career will save lives. Gain the knowledge and skills to make informed decisions under the pressures of working as a paramedic. This course fosters professional excellence, longevity and lifelong learning. Graduate ready for an in-demand career.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 35 in English other than EAL,¹
MEL (HPMB) Sem 1
MEL (HPMD) Sem 1
MEL (HPMP) Sem 1
SHP (VHCPL) Sem 1
ATAR 66 4 years

Bachelor of Pharmacy (Honours)³ Proposed course

Understand how medicines impact and change people’s lives. Learn how to break the link between medical practitioners and the public. Study science, pharmacy practice, legislation, therapeutics, complementary medicines and public health issues in rural and remote Australia.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 35 in English other than EAL,¹
MEL (HPHR) Sem 1
ATAR 62 4 years

Bachelor of Podiatry (Honours)³ Proposed course

Make a difference to people’s mobility and quality of life. Studying at Australia’s largest podiatry school, you’ll learn about the fundamentals of biomechanics, the causes of human disease and the factors that influence health. You’ll also undertake placements in community health centres, hospitals and private practices.

Expected prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 35 in English other than EAL,¹
MEL 1st
ATAR 56 TBA 4 years

Bachelor of Prosthetics and Orthotics (Honours)³ Proposed course

Prepare for a rewarding career in prosthetics and orthotics. Learn about artificial limbs for people with amputations and supportive devices for people with physical disabilities or movement disorders. Undertake clinical placements to gain experience in prosthetic and orthotic treatment while working directly with clients.

Expected prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 35 in English other than EAL,¹
MEL 1st
ATAR 56 TBA 4 years

Bachelor of Psychological Science latrobe.edu.au/hbps

Understand the human mind and how it drives behaviour and mental health. Study clinical psychology, developmental and social psychology, psychological assessment, intervention and how to conduct research. Focus on clinical neuroscience, the psychology of culture and global citizenship, human relationships or animal human relationships. Graduate closer to your career as a psychologist.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 35 in English other than EAL,¹
MEL (PSB) Sem 1
MEL (PSH) Sem 1
ATAR 65-6 2 years

Diploma of Health Sciences (12 months) ² Enter 2nd year of this degree

1. See online for a full list of entry requirements, including non-Year 12 students
2. From 2020, the University intends to replace the Bachelor of Applied Science/Master of Podiatric Practice with a Bachelor of Podiatry (Honours)
3. Please note information about this course is subject to change, as the course has not completed La Trobe University approval processes. Following course approval, accreditation by the relevant professional body will be sought. For the most current information, visit: latrobe.edu.au/
Bachelor of Psychology (Honours) [latrobe.edu.au/shp]

Understand the human mind and how it drives behaviour and mental health. Develop analytical, research and communication skills within a wide range of areas in psychology. Choose from electives such as clinical neuroscience, human-animal relations, cultural psychology and global citizenship. Graduate ready to build a career in a psychology or mental health-related field or pursue research.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 20 in English other than EAL.

Bachelor of Sports and Exercise Science [latrobe.edu.au/hbse]

Get ready for career in sport by developing applied skills in coaching, coach education, sport science and sport development. Learn about athlete performance and training, talent identification, skill development, sport psychology, and applied research and coaching. Apply your knowledge to real-life situations with sport coaching placements and internships.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 20 in English other than EAL, and a study score of at least 30 in two of Biology, Chemistry, Health and Human Development, any Mathematics, or Physical Education.

Bachelor of Sports Coaching and Development [latrobe.edu.au/hbscd]

Get ready for career in sport by developing applied skills in coaching, coach education, sport science and sport development. Learn about athlete performance and training, talent identification, skill development, sport psychology, and applied research and coaching. Apply your knowledge to real-life situations with sport coaching placements and internships.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 20 in English other than EAL, and a study score of at least 30 in two of Biology, Chemistry, Health and Human Development, any Mathematics, or Physical Education.

Diploma of Health Sciences [latrobe.edu.au/hhdh]

Build your career in the health sciences. This course is a pathway into many of our undergraduate programs in this field. Learn key aspects of science and explore social, psychological and environmental impacts on health. Prepare for further study in your field of interest.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.

Diploma of Sports Coaching and Development [latrobe.edu.au/hbsc]

Get ready for a career in sport by developing applied skills in coaching, coach education, sport science and sport development. Learn about athlete performance and training, talent identification, sport and exercise science, sport management and marketing.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.

Health

Honours degrees
Once you’ve completed your Bachelor’s degree, you can extend your knowledge and skills by taking an Honours year. See online for course details.

Bachelor of Health Sciences (Honours)  MEL (HBHNS)  DEN (HNBGS)
Bachelor of Human Nutrition with Honours  BDN (HHNUS)
Bachelor of Nursing (Honours)  MEL (HHNUSB)  DEN (HNBGS)

Bachelor of Nursing (Honours)  latrobe.edu.au/hnurs

Earn the knowledge and skills to become a registered nurse. This course is a pathway to many of our undergraduate programs in this field. Learn key aspects of science and explore social, psychological and environmental impacts on health. Prepare for further study in your field of interest.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.¹

Bachelor of Health Sciences  latrobe.edu.au/hdhsb

Prepare for further study in your field of interest. Learn key aspects of science and explore social, psychological and environmental impacts on health.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; and a study score of at least 20 in two of Biology, Chemistry, Health and Human Development, any Mathematics, Physical Education or Physics.¹

Bachelor of Sports Coaching and Development  latrobe.edu.au/hbsc

Get ready for a career in sport by developing applied skills in coaching, coach education, sport science and sport management. Apply your knowledge to real-life situations with sport coaching placements and internships.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 20 in English other than EAL.

Diploma of Sports Coaching and Development  latrobe.edu.au/hbsc

Prepare for a career in sport by developing applied skills in coaching, coach education, sport science and sport management. Apply your knowledge to real-life situations with sport coaching placements and internships.

Prerequisites
VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.

FOR QUESTIONS:
La Trobe University

² This degree is offered through a La Trobe education partner. See online for details

---

‘La Trobe’s strong focus on research goes a long way in improving the lives of so many people and shows their commitment to evidence-based practices in everything they teach.’

Cassie Wilcox
La Trobe speech pathology graduate
IT and engineering

The age of technology. We hear so much about it, but what does it really mean? Right now, it means fighting cybercrime and designing the cities of the future. What comes next? Well, that’s where you come in.

With a degree from La Trobe, you’re prepared for changes to come with a balance of practical skills and creative thinking. We’re constantly updating our courses, so you can specialise in subjects your grandparents couldn’t dream of. Cybersecurity. Artificial intelligence. Machine vision. Robotics.

So what’s the clever way to learn? With practical work placements at major companies like Telstra, BMW and Boral. Or collaborating on immersive projects. You could design a self-transforming robot or develop a climate prediction tool. With experiences like this, you’ll graduate confident with on-the-job experience and strong professional networks.

Behind the scenes, IT skills are in huge demand. As traditional jobs disappear, your advanced knowledge of computers and refined creative skills will place you ahead of your peers as a highly employable innovator.

Zooming out, you’ll see the big picture with a career in engineering. Adaptability is key, so you’ll graduate ready to work across traditional and emerging industries. Strong foundations, innovation and professional experience. That’s what you’ll get with an engineering degree at La Trobe.

Whatever your dream, join the next generation of clever engineers and IT specialists, ready to make a difference in the world’s fastest-moving industries.

Clever is…

- Showcasing your skills in front of industry experts at our annual Engineering and IT Showcase.
- Working in state-of-the-art labs for engineering, computer science and cybersecurity with 24/7 access.
- Working and learning in Victoria’s regions with innovative teaching and collaborative research spaces in our new Engineering and Technology Building at our Bendigo Campus.

Learn more: latrobe.edu.au/it-eng
Bachelor of Applied Cloud Technology

Help drive business agility and growth through digital transformation strategies. Build your knowledge and skills across information systems, web and software development, machine learning, databases and big data, enterprise cloud migration, cloud enterprise application development and computer networks. You may gain early entry to the workforce while studying online.

Prerequisites
Year 12 completion with AGGS administered Higher Education Linking and/or online technology aptitude testing with a minimum score of 55 per cent.

Bachelor of Applied Information Technology

Gain a fundamental understanding of information technology. Explore focus areas in information systems, software development, computer networks and web development. Combine your online study with early entry to the workforce. Graduate with the skills to bridge the gap between technical and management personnel.

Prerequisites
Year 12 completion with AGGS administered Higher Education Linking and/or online technology aptitude testing with a minimum score of 55 per cent.

Bachelor of Business Information Systems

Use technology to make the best possible decisions. Understand how to manage systems and find innovative solutions to information challenges. Study IT, programming, management, the development of information systems and databases design. Complete an industry project and be ready to work in technology and management across a range of organisations.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 30 in English other than EAL.¹

Bachelor of Business Information Systems (Honours)

Become an adaptable, innovative and creative civil engineer. Understand the fundamentals of electrical, mechanical and electronics engineering and gain in-depth knowledge of geotechnical, hydraulic and structural engineering. Develop high level skills in sustainable infrastructure, civil construction, water resources, surveying and computer-aided design. Graduate ready for your civil engineering career.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 30 in English other than EAL, and a study score of at least 30 in one of Mathematics Methods or Mathematics Specialist Mathematics.

Bachelor of Commerce/Bachelor of Computer Science

Qualify for a professional position in accounting, economics, finance, marketing or management and apply your business skills to commercialise your software program or app. Study hardware, software and object-oriented systems. In commerce, major in accounting, economics, finance, management or marketing. Start your career in IT, business or software development.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 30 in English other than EAL, and a study score of at least 30 in one of Mathematics Methods or Specialist Mathematics.¹

Bachelor of Cybersecurity

Oversee the development of cutting-edge cybersecurity strategies across global industry. Gain skills across IT, business, law, policy and strategic communication. Cover the history of hacking, the techniques cyber criminals use and the various methods used to defend and protect against malicious cyber threats. Be ready for your career in cybersecurity.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 30 in English other than EAL.¹

Bachelor of Cybersecurity/Bachelor of Psychological Science

Cybercrime is as much about people as it is about technology. Complement your studies in psychological science with the highly specialised cybersecurity field. Learn about cybercrime, computer forensics, cyber law, policy and crisis management. Graduate ready to help organisations protect themselves against cybercriminals.

Prerequisites
VCE Units 3 and 4: a study score of at least 35 in English (EAL) or at least 30 in English other than EAL.¹

1. See online for a full list of entry requirements, including ATAR and non-Year 12 students.
2. This degree is offered through a La Trobe education partner. See online for details.
3. ATAR scores are not published for courses with fewer than five ATAR-based offers made.
4. NP ATAR not published.
IT and engineering

La Trobe University

Bachelor of Electrical and Electronic Engineering (Honours)¹

Electronic devices and electrical power supply are fundamental for 21st century society. This course will teach the design, integration and maintenance of these electronic and electrical systems. Gain practical hands-on problem-solving skills through labs, projects and work placements. Industrial applications include power generation, communications, machine vision and electronics design.

Expected prerequisites

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL. Units 3 and 4: a study score of at least 20 in one of Maths: Mathematical Methods or Maths: Specialist Mathematics.¹

Bachelor of Engineering Honours (Industrial)

latrobe.edu.au/sheni

Become the engineer of the future. Study engineering design and problem solving, renewable energy design, mathematics, programming, electrical and electronic engineering, robotics, system design and engineering innovation. Complete work placements with our industry partners and graduate ready for a career in Industry 4.0.

Prerequisites

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL. Units 3 and 4: a study score of at least 20 in one of Maths: Mathematical Methods or Maths: Specialist Mathematics.¹

Bachelor of Information Technology

latrobe.edu.au/sbit

Get ready for an in-demand career. Study hacking, software piracy, security breaches and IT fundamentals. Gain skills in project management, project estimation, report evaluation, software development, IT systems analysis, design, programming and networking. Refine your studies with electives and be ready for a range of IT careers.

Prerequisites

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.¹

Honours degrees

Once you’ve completed your Bachelor’s degree, you can extend your knowledge and skills by taking an Honours year. See online for course details.

³ SP (Study Period)

NC New course

La Trobe rekindled my passion for engineering. I’m now enjoying my career as a civil engineer, and I can’t wait to step into a higher management role.’

Chris Sawyer
La Trobe engineering graduate
Law and criminology

Who’s responsible for decisions made by machines? What do privacy rights look like in the age of social media? How has technology changed the nature of crime? These questions are being asked in classrooms and courts around the world, and they’re the questions you’ll confront in a law or criminology degree at La Trobe.

Inside courts and on the beat, there’s a growing demand for forward-thinking professionals. Legal practitioners who can brave the digital landscape. Criminology experts to fight for modern justice. With a degree from La Trobe, this could be you. We’re the third oldest law school in Victoria and the most technologically driven.

You’ll have so many chances to practice. The only question is how. Will you take a stance in our moot courts? Do a placement in a big-city law firm? Join our award-winning Fast Track Clinic at the Asylum Seeker’s Resource Centre? You’ll be mentored by professionals along the way, learning from barristers, solicitors and even judges.

By the time you graduate, you’ll be ready for the jobs of the future. With just the right set of skills and professional networks, you could get a job in a law firm, the bar or maybe the legal aid sector. Whatever you choose, you’ll be ready for action, change and the challenges of a technological future.

Clever is...

- Learning from the best with sociology subjects ranked in the top 150 in the world and highly experienced industry professionals.
- Developing the right skills with Dispute Resolution as a core subject in our law degrees.
- Being unique with the only criminology course in Victoria with a core forensics component.
- Interactive learning with small-group law tutorials or debates about the big issues in criminology classes.
- Putting it into practice with a work placement in a law firm or community organisation like the Consumer Action Law Centre or the Office for the Public Advocate.
- Getting a global perspective and a feel for different legal systems with an international exchange.

1. QS World University Rankings by Subject 2019
**Law and criminology**

**Career outcomes**
Explore a vast array of exciting careers and jobs, including:

- **Law**
  - Barrister
  - Corporate lawyer
  - Government lawyer
  - Judge's associate
  - Government lawyer
  - Corporation
  - Lawyer
  - Barrister

- **Criminology**
  - Policy adviser
  - Police officer
  - Custom officer
  - Solicitor
  - Youth justice worker

**Bachelor of Commerce/Bachelor of Laws**

Broaden your career options. In commerce, you’ll gain in accounting, economics, finance, management or marketing. In law, you’ll study the compulsory law subjects required to apply for admission to the legal profession in Victoria. Learn the high-level skills in analysis, advocacy, mediation and negotiation you need to succeed in any business or law environment.

**Prerequisites**

VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

La Trobe University Undergraduate Guide 2020

Bachelor of Laws/Bachelor of Business

Combine a foundation in business with a recognised legal qualification. Learn the fundamentals of business, economics and finance, and gain the skills and knowledge you need to work in legal practice. Graduate ready to enter a career in law, corporate and not-for-profit organisations, government or public policy.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

Bachelor of Laws/Bachelor of International Relations

Prepare for an international career. Combine knowledge of international politics, economics and diplomacy with the study of Australian and international law. Take electives in law, sociology, the global economy, diplomacy, modern political thought, social change and conflict. Graduate ready for a career in international law, business or government.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

Bachelor of Laws/Bachelor of Media and Communication

Gain an innovative legal education with practical insights into the media. Study the compulsory law subjects required to apply for admission to the legal profession in Victoria. Study electives like international advocacy, clinical legal education, mediation and negotiation. Graduate ready for a career in law and the media.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

Bachelor of Laws/Bachelor of Politics, Philosophy and Economics

Get an innovative legal education with a social justice perspective. Study a range of subjects in a hands-on environment that hones leadership, decision-making and analysis. Graduate ready to start a career in areas including government, project management, policy development and analysis, journalism and public interest lawyering.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

Bachelor of Laws/Bachelor of Psychological Science

Investigate fields where law, psychology and mental health intersect. Develop your understanding of the biological and social aspects of human behaviour while building practical legal skills in advocacy, mediation and negotiation. Graduate with sought-after skills for a range of careers in management, research, marketing, teaching, counselling and recruitment.

Prerequisites
VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

Honours degrees

Once you’ve completed your Bachelor’s degree, you can extend your knowledge and skills by taking an Honours year. See online for course details.

Course title
Bachelor of Criminology (Honours)

Prerequisites
MEL: (LHCR)
Today, we’re living in a world where opinions are often presented as facts. Now more than ever, scientists are the voice of reason we so badly need. We need scientists to investigate and innovate. Scientists who can collaborate and communicate. Will you join the good fight against fake news? Gain the skills to change the world for good with a science degree from La Trobe.

No matter which course you choose, you’ll learn from experienced academics in immersive learning spaces. You could study biodiversity in our wildlife sanctuary. Or get up close and personal in our multimillion-dollar molecular science lab. You’ll collaborate, investigate and discover.

Explore your future potential in on-site industry placements. Maybe a cadetship with the Centre for Freshwater Ecosystems, or a placement with Austin Health? You’ll be learning from the best. Your teachers and mentors are all industry experts, and our research is rated well above world standard in 18 scientific fields. And when the time is right, armed with facts and skills, you’ll get your chance to change the world.

Whatever your mission, with a science degree from La Trobe, you’ll graduate ready to meet the world’s most important scientific challenges.

Clever is...

- **Accessing world-leading research facilities** like our $100 million La Trobe Institute for Molecular Science.
- **Working and learning in world-class facilities** in Australia’s first integrated agricultural systems biology research centre: the $288 million Centre for AgriBioscience.
- **Seeing biodiversity in action** as you study indigenous plants and animals at our 30-hectare outdoor laboratory: the La Trobe Wildlife Sanctuary.
- **Getting a world-class education** with courses ranked in the world’s top 200 for Agricultural Science Subjects and Psychology.
- **Personalised learning** with mentoring from students in higher years and alumni.

Bachelor of Science

La Trobe College Australia pathway

Career outcomes

A career in science doesn’t always begin or end in the lab, with the many and varied job roles including:

- Agricultural and environmental sciences
- Agribusiness manager
- Agronomist
- Aquaculture producer
- Biodiversity officer
- Conservation officer
- Environmental consultant
- Environmental educator
- Soil scientist
- Vigneron
- Wildlife biologist

Physical and chemical sciences

Chemist
Geoscientist
Pharmacist
Physicist
Statistician

Prerequisites

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in any Mathematics.¹

Bachelor of Agricultural Sciences

Bachelor of Agriculture and Technology

Bachelor of Animal and Veterinary Biosciences

Bachelor of Arts/Bachelor of Science

Bachelor of Biological Sciences

Bachelor of Biomedical Science

Bachelor of Biomedical Science (Medical)

Career outcomes

Combine science with economics to tackle some of the world’s biggest challenges. Study plant science, land and soil management, animal physiology, animal psychology, pest control and groundwater sustainability. Complete a work placement and graduate ready for a career in finance, agribusiness, consulting, government and humanitarian work.

Prerequisites

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in any Mathematics.¹

Prerequisites

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in any Mathematics.¹

World-class research and facilities

The La Trobe Institute for Molecular Sciences (LIMS) is committed to solving global problems and improving the welfare of human societies. The complex has 56 research and support laboratories, a 200-seat auditorium and over 3,000 square metres of teaching facilities. The Institute’s vision is achieved through excellence in six areas of research strength: cancer, infection and immunity, neurobiology, molecular design, molecular imaging and molecular sensing.

1. See online for a full list of entry requirements, including non-Year 12 students
2. Majors available: biochemistry, botany, chemistry, genetics, microbiology, statistics, zoology
3. Majors are only offered through a La Trobe education partner. See online for details
Bachelor of Biomedicine

Combine biology, health and medicine: in commerce, you’ll major in accounting, economics, finance, management or marketing. In biomedicine, you’ll study anatomy, biochemistry, microbiology, pharmacology, genetics, immunology, cell and molecular biology, physiology and neuroscience. Graduate ready for a career in biotechnology, medical research and the pharmaceutical industry.

Prerequisites

Bachelor of Laws/Bachelor of Psychological Science

Career outcomes

A career in science doesn’t always begin or end in the lab, with the many and varied job roles including: Medical and psychological sciences Biomedical researcher Dietitian Psychologist Speech pathologist Molecular and biological sciences Animal welfare officer Biotechnologist Microbiologist Plant scientist Zoologist
Bachelor of Laws/Bachelor of Science  
latrobe.edu.au/lbfasa

Open up a range of career opportunities. In law, you study essential legal areas like criminal law, constitutional law, ethics and choose from a wide range of electives. Choose a science specialisation from botany, computer science, psychology, chemistry and physics. Be prepared for a variety of careers across science and law.

**Prerequisites**
- VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.
- ATAR score of at least 50.

Bachelor of Nursing/Bachelor of Psychological Science  
latrobe.edu.au/bnbs

Combine your health interests and broaden your career opportunities. Gain a foundational understanding of cognitive, developmental, social, abnormal, and clinical and health psychology. Study clinical nursing subjects and practice nursing care for people of all ages. Graduate with flexible pathways towards careers in clinical nursing, specialised mental health nursing practice, rehabilitation counselling, psychology, research and more.

**Prerequisites**
- VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.
- ATAR score of at least 66.3.

Bachelor of Pharmacy (Honours)  
latrobe.edu.au/bphhp

Understand how medicines impact, improve and change people's lives. Learn how to work as the link between medical practitioners and the public. Study science, pharmacy practice, legislation, therapeutics, complementary medicines and public health issues in rural and remote Australia.

**Prerequisites**
- VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.
- ATAR score of at least 66.

Bachelor of Psychological Science  
latrobe.edu.au/bys

Understand the human mind and how it drives behaviour and mental health. Develop analytical, research and communication skills within a wide range of areas in psychology. Choose from electives such as clinical neuroscience, human-animal relations, cultural psychology and global citizenship. Graduate ready to build a career in a psychology or mental health related field or pursue research.

**Prerequisites**
- VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.
- ATAR score of at least 51.6.

Bachelor of Science  
latrobe.edu.au/bsc

Kickstart your science career. Choose from 14 majors including biochemistry, biomedical science, botany, chemistry, environmental geoscience, genetics, mathematics, microbiology, molecular biology, nanotechnology, pharmaceutical chemistry, physics, statistics and zoology. Graduate ready for further specialisation or entry-level science roles.

**Prerequisites**
- VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL.
- ATAR score of at least 55.6.

Bachelor of Science (Wildlife and Conservation Biology)  
latrobe.edu.au/sbswcb

Learn to tackle the threats facing our environment. Study zoology, genetics, botany, extinction, environmental degradation and climate change. Take subjects in environmental law, remote sensing and GIS, global environmental politics and international climate change economics and policy. Undertake field trips and start your career in the outdoors.

**Prerequisites**
- VCE Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.
- ATAR score of at least 85.3.

Bachelor of Science/Bachelor of Business  
latrobe.edu.au/szsbb

Combine business skills and a scientific grounding with a global perspective. Choose one of four science majors alongside subjects in accounting, business practice, business law and economics. Develop your critical thinking and analysis skills and gain a greater understanding of how business and science interact. Graduate with in-demand skills for a management career in the science sector.

**Prerequisites**
- VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL, and a study score of at least 20 in any Mathematics.
- ATAR score of at least 50.

---

1. See online for a full list of entry requirements, including non-Year 12 students.

2. ATAR scores are not published for courses with fewer than five ATAR-based offers made.
I’m currently the AFL Digital Lead Journalist for Fox Sports Australia, where I lead a team of six reporters including two other La Trobe graduates. Any day can be different: I could be writing my own stories, editing a colleague’s work, organising social media, podcasting or blogging. There’s no doubt my time at La Trobe helped me learn and develop the many skills I use every day.

Ben Waterworth
Bachelor of Media and Communication (Sport Journalism) graduate.

‘My career in genetics started at La Trobe. I want to help the University strengthen its commitment to attracting and retaining talent so that other young scientists have the same opportunity.’

Professor Jenny Graves
La Trobe University geneticist,
Distinguished Professor and VC’s Fellow.
Awarded the Prime Minister’s Prize for Science 2017.
La Trobe University acknowledges that our campuses are located on the lands of many Traditional Custodians in Victoria and New South Wales. We recognise their ongoing connection to the land and value their unique contribution to the University and wider Australian society.

La Trobe University is committed to providing opportunities for Aboriginal and Torres Strait Islander people, both as individuals and communities, through teaching and learning, research and community partnerships across all our campuses.

The wedge-tailed eagle (Aquila audax) is one of the world’s largest, and the Wurundjeri people – Traditional Owners of the land where our Melbourne campuses are located – know the wedge-tailed eagle as Bunjil, the creator spirit of the Kulin Nations.

There is a special synergy between Bunjil and the La Trobe University logo of an eagle. The symbolism and significance for both La Trobe and for Aboriginal people challenges us all to gamagoenyarrbat – to soar.

Open Day 2019
