

Bachelor of Health Science

Coordinators Louise Lexis and Brianna Julien took a wholistic approach to embedding employability in the Bachelor of Health Sciences

- *Students develop career literacy through embedded 10% assessment activities in core subjects each semester, and are supported by dedicated academic advisors throughout their course*
- *Career exploration and reflection activities, creation of a LinkedIn profile, and the development of an ePortfolio support students to graduate future ready from the Bachelor of Health Sciences*

Teaching team:
