

## How do I order a book for my reading list?

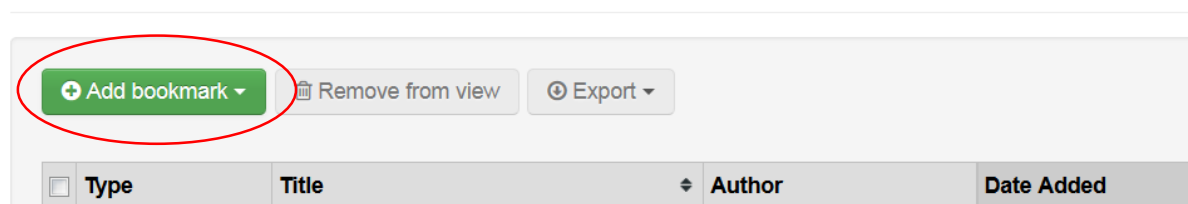

1. If you require a resource not owned by the Library and which cannot be found via Library search, you can bookmark it from the National Library of Australia's webpage: <http://trove.nla.gov.au/>:

The screenshot shows the Trove website interface. At the top, the URL is [trove.nla.gov.au/work/19767940?q=anterior+knee+pain+and+patellar&c=book](http://trove.nla.gov.au/work/19767940?q=anterior+knee+pain+and+patellar&c=book). The navigation bar includes 'Library, La Trobe Univ...', 'Collections and Access', 'La Trobe Intranet', 'Alma', and 'Add to My Bookmarks' (circled in red). Below the navigation bar is the 'NATIONAL LIBRARY OF AUSTRALIA' header and the 'Trove' logo. A menu bar offers categories: 'All', 'Books', 'Pictures, photos, objects', 'Journals, articles and data sets', 'Digitised newspapers and more', 'Music, sound and video', 'Maps', and 'Diaries, letters, archives'. The search results section shows 'anterior knee pain and' with filters for 'Available online' and 'Australian c'. The breadcrumb trail is 'Home > Search results > All editions'. The main result is for the book 'Anterior knee pain and patellar instability / V Alfonso (ed.)' by Sanchis-Alfonso, Vicente. A 'Bookmark' button and the URL <http://trove.nla.gov.au/work/19767940> are visible.

**Note:** If you can't find the book on Trove you can also bookmark from the Amazon website [www.Amazon.com](http://www.Amazon.com). You can also manually add a bookmark from the My Bookmarks tab by clicking on the green Add bookmark button at the top of the list:
