

SHE3FRW

Future Ready for Work

SHE3FRW enables students from the College of SHE to self-source a domestic placement in a field related to their course. Students complete 100-140 hours of on-site industry placement alongside university assessments that include a pre- and post-placement skills survey and the collection of evidence of skill development while on placement.

With over 80 students completing placement and more than 45 external industry partners participating, SHE3FRW makes LTU students work ready.

Teaching team: Dr Colleen Holt
