## HEALTH

# LA TROBE UNIVERSITY

Studying overseas is one of the most exciting and life-changing experiences you can have. It's a journey that will not only shape your career but help you develop as a global citizen.

As a top 1% university worldwide<sup>1</sup>, at La Trobe you'll be joining the ranks of thousands of students and alumni who have gone on to make their impact in Australia and around the world.

Practical, hands-on learning is at the heart of what we do. We work closely with industry to ensure our courses meet the needs of employers and we provide you with state-of-the-art facilities to hone the skills you need for a successful career.

Our strong industry partnerships will provide you with opportunities for placements, internships, and work-integrated learning with some of Australia's top organisations. And you won't be alone – you'll have the full support of the La Trobe community at every step of your academic journey.

I look forward to the impact you'll make, and hope to see you on campus.

**Professor Theo Farrell**  
Vice-Chancellor and President

1. QS Top Universities, 2025; QS World University Rankings 2026; Top global universities; Webometrics, 2025; Webometrics Ranking July 2025

#### Transport Hub

Get to and from La Trobe by bus, train or tram.

#### The Agora

The beating heart of our campus where students gather to eat, study, socialise and even see live music, events or cultural festivals.

#### Bio Innovation Hub

Purpose-built laboratory and office facility supporting the growth of early-stage biotechnology and agritech businesses.

#### Centre for Data Analytics and Cognition

Research centre focusing on the theoretical advancement of artificial intelligence, cognitive computing, data analytics and automation.

#### Net zero campus

As part of our commitment to Net Zero by 2029, we're creating the largest urban solar farm in Victoria, with around 4,300 solar panels generating 5.8 megawatts of renewable energy.

#### Student accommodation

Range of shared and individual living options, with dedicated security staff and on-campus access to amenities and wellbeing, sports and study facilities.

#### Research and Innovation Precinct

Digital Innovation Hub – advanced facilities powered by Cisco and Optus, leveraging AI, Internet of Things (IoT), software development, data analytics and networking.

#### La Trobe Sports Park

Immerse yourself in our high-performance sports facilities, our indoor multi-purpose stadium and FIFA-1 standard football pitch, home to the national Australian women's football team.

#### LIMS

La Trobe Institute for Molecular Science is a multi-level cutting-edge research and innovation facility, working on some of the world's most critical problems at the interface of health and science.

#### Nangak Tamboree Wildlife Sanctuary

A living laboratory for students, staff and the wider community, created in 1967 as a project to restore native Australian flora and fauna.

# GET REAL WITH INDUSTRY

If you're looking to start a career that changes lives and shapes communities, health should be your top option.

## CAREER READY ADVANTAGE

Sector-leading employability programs and projects to develop skills employers want.

## WORK-BASED LEARNING

Test your knowledge in a professional, real-world environment.

## INDUSTRY PLACEMENTS

Compulsory and elective professional placements as part of your studies.

## LEARNING WITH INDUSTRY

Mentoring, networking, specialist career consultations, workshops, leadership programs and more.

## CAREER READY ONLINE AND CAREER HUB

100+ e-learning programs, resume and cover letter feedback, interview practice, job opportunities and more.

## SUCCESSFUL GRADUATE

Get trained for the Australian job market before and during your study.

## TRAINING AN AI-READY WORKFORCE

In partnership with Microsoft and cybersecurity provider CyberCX, La Trobe has a bold new ambition: transform research, education, student support and business operations by applying an AI-first approach.

This nation-leading project will deliver an AI-ready workforce of graduates and academics, built on key principles of safety and responsibility, and an ambitious vision to become a university of choice for students, employers and partners seeking AI-empowered talent.

AI is revolutionising society at great speed and La Trobe is committed to being at the forefront of embracing and implementing these cutting-edge technologies within all study areas, including business, science, health, engineering and IT.

As part of that commitment, La Trobe will be providing opportunities to build expertise and experience in AI and emerging technologies through guest lecturers, industry participation, scholarships and skills programs, cyber careers promotion, funding for digital transformation, industry-recognised certifications and micro-credentials – all leveraging the expertise of partners Microsoft and CyberCX.

"I chose La Trobe just because of the simulation labs and the communications with the teachers. Some universities don't give placements as much as La Trobe. La Trobe gives you the preference to choose your own hospital that you want to be in because they care about their students and what they want."

**Navleen**  
Bachelor of Nursing

# CAMPUSES

## Melbourne (Bundoora)

Our Melbourne Campus is one of Australia's largest metropolitan campuses located in Melbourne's north. The campus is surrounded by lush Australian native flora, with scenic on-campus accommodation and a direct tram to the heart of Melbourne's CBD. You can enjoy walks in our campus parklands or onsite wildlife sanctuary, get fit at our premier sport park and fitness facilities, and organise all your amenities at our on-campus food court, cafés, convenience store, post office, and more.

### Bendigo

La Trobe's largest regional campus, Bendigo offers a laid-back lifestyle with a premier university education, world-class facilities and strong industry connections across engineering, health, science, education, business and more. Located just under two hours away from Melbourne by train, it's close to the Bendigo city centre and some of Victoria's greatest natural wonders.

### Albury-Wodonga

Our Albury-Wodonga Campus offers a uniquely Australian university experience with a close-knit, supportive campus close to the scenic Murray River. The campus is home to three university research centres, biomedical labs, clinical learning units and facilities, on-campus accommodation options, and more.

### Shepparton

Our Shepparton Campus offers small class sizes, high-standard teaching, and unique placement and industry opportunities. Facilities include a clinical learning unit with advanced technologies, modern study areas, and a supportive campus culture tailored to regional students.

### Mildura

Our Mildura Campus offers a relaxed lifestyle and cosmopolitan atmosphere, with small class sizes to deliver a more personalised learning experience. The campus fosters strong industry relationships, giving students access to local placements within the community.

### Sydney

Located in the centre of Sydney's CBD, the Sydney Campus offers foundation studies and diploma programs, along with a range of undergraduate and postgraduate degrees in the areas of business, information technology, cybersecurity, health, and education.

### Melbourne (City)

Located in the heart of Melbourne's CBD, the City Campus offers postgraduate courses in health and law with modern learning facilities and easy access to work and internship opportunities, cultural events, restaurants, cafés, sporting events and shopping.

# POPULAR COURSES

## BACHELOR OF HEALTH SCIENCES

Create a rewarding career in Australia's fastest-growing sectors

Examine the way our minds, society, environment, and political structures affect the health of individuals, families and communities at local, national and international levels.

Choose from nine majors, with the option of second majors and minors in health sciences or a range of other disciplines to broaden your expertise.

Graduate ready to make real impact on health policy and practice in areas such as digital health, environmental health, nutrition or health promotion.

### CAREER PATHS

- Public health manager
- Health promotion coordinator
- Environmental health officer
- Nutritionist
- Digital health officer

## BACHELOR OF NURSING

Graduate with the skills and confidence to navigate a rapidly evolving healthcare sector

Benefit from hands-on learning with leading clinicians in our state-of-the-art simulation labs at all campuses, in a supportive and inclusive environment led by experts.

Complete clinical placements at Victoria's leading metropolitan and regional hospitals from your first year, and access opportunities for international placement.

Graduate ready to apply to become a Registered Nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

### CAREER PATHS

As a registered nurse (RN), you can pursue career opportunities around the world in a range of settings, including:

- Clinics and hospitals
- Homes and hospices
- Aged care settings
- Schools and universities
- Community health centres
- Government agencies and private industry

## BACHELOR OF OCCUPATIONAL THERAPY (HONOURS)

Learn the skills and knowledge to help people reach their full potential

Get practical, real-world experience and build your professional network through 1,000 hours of professional placements.

Develop complementary soft skills such as communication and collaboration while building specialist discipline knowledge.

Choose from an industry or research minor when completing your Honours year.

### CAREER PATHS

There's a high demand for occupational therapists across the public and private sector, including:

- Community health organisations
- Corporate and industrial workplaces
- Paediatric, adult and aged care services
- Public and private hospitals
- Rehabilitation services
- Research institutes, schools and universities

## MASTER OF NURSING PRACTICE

Build on your existing Bachelor's degree to become a registered nurse (RN) in just two years

Gain the clinical skills you need to upskill or change careers with our state-of-the-art nursing simulation labs.

Learn from leading clinicians and academics at the La Trobe Rural Health School – Australia's largest rural health school.

Apply your skills into the real world with clinical placements in leading regional and rural hospitals and healthcare providers.

### CAREER PATHS

As a registered nurse (RN), you can pursue career opportunities around the world in a range of settings, including:

- Clinics and hospitals
- Homes and hospices
- Aged care settings
- Schools and universities
- Community health centres
- Government agencies and private industry

## MASTER OF PHYSIOTHERAPY PRACTICE

Combine clinical practice and theoretical understanding

Build your skills with on-campus simulated clinical practice and then get real-world experience with placements in a variety of healthcare settings.

Learn how to confidently assess and treat patients from across the lifespan with varying needs.

Understand the ethical and professional codes of conduct that physiotherapists work under.

### CAREER PATHS

Physiotherapists are employed in a wide variety of settings, including:

- Private practice
- General hospitals
- Rehabilitation centres
- Community health centres
- Industrial clinics
- Specialist centres
- Education and clinical research

## MASTER OF PUBLIC HEALTH

Learn the key principles for designing a healthier, safer future for all

Learn important foundations in systems thinking, epidemiology, policy and research methods and explore how to gather, interpret and leverage health data to create a healthier society.

Gain a global approach to public health so you can work in health systems both in Australia and around the world, from policy to projects and more.

### CAREER PATHS

- Senior policy officer
- Health project manager
- Researcher
- Evaluation officer

PREPARING FOR THE FUTURE  
NEEDS OF HEALTHCARE

The future is changing and it’s happening now. The World Economic Forum estimates about 170 million new jobs will be created by global macro trends this decade, which is equivalent to 14% of total employment today.

Generative AI is rapidly transforming the healthcare industry, adding value across areas like administrative efficiency, clinical productivity, engagement, research and quality of care.<sup>1</sup> As the healthcare industry continues to evolve, so will the demand for qualified healthcare workers with digital skills in the areas of AI, data analytics, and digital health.

To prepare for the economy of tomorrow, it’s important that you graduate with the skills and knowledge to remain in-demand for an evolving future.

RISING WORLDWIDE  
DEMAND

The World Health Organisation estimates a worldwide shortage of 11 million health workers by 2030.

WHO, 2025, Health Workforce

AUSTRALIA’S BIGGEST  
EMPLOYER

Health Care and Social Assistance industry leads as Australia’s largest employer, with over 2.2 million workers.

Jobs and Skills Australia, 2025, Occupation and Industry Profiles: Health Care and Social Assistance

DEMAND FOR  
QUALIFICATIONS

92% of the new jobs created in Australia in the next ten years are expected to require a tertiary-level qualification.

Jobs and Skills Australia, 2025, Employment projections for the decade ahead

1. McKinsey, 2025, Generative AI in healthcare: Current trends and future outlook

# HOW TO APPLY

## STEPS TO APPLY

### STEP 1

#### Find a degree

Use our course search tool to explore our range of undergraduate, postgraduate and research courses to find the right degree for you.

### STEP 2

#### Begin applying

As an international student, you can apply through an authorised La Trobe agent or directly via our online form.

### STEP 3

#### Check all entry requirements

You will find essential entry requirements for your course in this guide and the full list of requirements on the course page on our website.

### STEP 4

#### Collect academic and identity documents

When lodging your application with La Trobe, you will need to provide a range of academic, financial and identity documents.

### STEP 5

#### Submit your application

Download our application checklist before submission. Verify that you have met all admission criteria, then submit.

Take the next step.  
Start your La Trobe application now.

## ENTRY REQUIREMENTS

At La Trobe, we have minimum academic and language requirements for undergraduate, postgraduate and graduate research study.

### Undergraduate

At a minimum, you need to have completed Australian Year 12 (or an accepted international equivalent) with a certain grade. You may also need to meet subject prerequisites.

### Postgraduate coursework

You need to have completed an Australian Bachelor's degree (or international equivalent) with certain grades. For some degrees, we may consider prior learning through work experience or professional accreditation. Some courses may have additional entry requirements.

### Higher degrees by research

We offer three types of graduate research degrees, depending on your goals, and educational and professional backgrounds. To find out the entry requirements, visit: [latrobe.edu.au/study/apply/research](https://latrobe.edu.au/study/apply/research)

### English language requirements

IELTS scores are our primary measure of English proficiency. However, we may accept tests other than IELTS if your overall score is the equivalent of the required IELTS score. Once you know your course's minimum accepted IELTS score, check that score against the information on our website to see its equivalent score in other English proficiency tests.

Don't meet all entry requirements?  
Explore pathway options to your dream course at La Trobe.

## LA TROBE INTERNATIONAL SCHOLARSHIPS

Our scholarships are designed to provide the support you need while you study in Australia.

We have scholarships available for all levels of study, whether you're pursuing undergraduate, postgraduate coursework or postgraduate research.

Our scholarship offerings reduce the stress of international study, recognise your achievements and reward your commitment to your future.

"La Trobe University offers a great deal of support to students, both academically and professionally. The school also has many scholarships to choose from, most are automatic, meaning you will automatically be considered for a scholarship."

Alex  
Master of Data Science
