

03 May 2024

To whom it may concern,

La Trobe University Bundoora Campus is proud to be the official Melbourne event site for the [Wings For Life World Run](#).

Wings for Life World Run is a charity fundraising fun run event where all money raised goes towards spinal cord research. The event is a global run starting at the same time around the world, with the Melbourne, **La Trobe University Bundoora Campus** event to take place on **Sunday, 5 May commencing at 9pm** and finishing at approximately 1am.

The format of the event is quite unique as there is no finish line. Participants run or walk until the virtual catcher car catches them. Everyone starts running at the same time with the 'catcher car' (through an app) starting 30 minutes later and slowly picking up speed until everyone is caught. The event will consist of wheelchair participants, casual runners, walkers and elite runners. The winning runner last year reached 48km before being caught.

The event will take place around the La Trobe Sports Park, with [La Trobe Sports Stadium](#) hosting the event hub. There are **no** road closures.

If you have any questions about the road closures or accessing the campus during the event please contact the Andrew Pettigrove La Trobe Sport, La Trobe University on 9479 3543.

Every step participants take supports spinal cord injury research therefore we're encouraging as many people to participate and join **Team La Trobe** made up of students, staff and the local community. To register please [click here](#) and following registration process please search **Team La Trobe** via the [Teams page](#) to join us.

Kind Regards,
